FEDERAL BUREAU OF INVESTIGATION

Date of transcription June 21, 1973

EUGENIO ROLANDO MARTINEZ, Inmate Number 25227, Federal Correctional Institution, advised that he was acquainted with his legal rights; that he knew he had the right to have legal counsel; and that he did not need to read or have read to him an enumeration of his legal rights. For this reason, he declined to read or sign the "Interrogation; Advice of Rights" Form.

MARTINEZ stated that he had been involved in the cases concerning the burglary of Democratic Party National Headquarters, Washington, D.C., during June, 1972, as well as the case concerning DANIEL ELLSBERG. He said he had furnished all information in his possession related to these cases to a Federal Grand Jury sitting at Los Angeles, California, and that his "boss", E. HOWARD HUNT, had also testified before the Grand Jury. MARTINEZ said he could furnish no information concerning the aforementioned matters, other than that previously furnished by him.

MARTINEZ stated that he has no information concerning any other "break-ins", other than at "Watergate". He said he saw a news item from a Miami, Florida, newspaper, which had been sent to him at the Federal Correctional Institution by a relative. The gist of the news item quoted a woman, identity not recalled, who alleged that there had been break-ins in the United States, in addition to that at the Watergate Apartments at Washington, D.C.

MARTINEZ said that in his opinion, the person who released such a story to the press did so in attempting to "make news" and receive the publicity which accompanied such a story. He advised he had never been in possession of such information and that he was unable to elaborate on the report.

MARTINEZ commented that he was sure JAMES WALTER MC CORD would have furnished details concerning any other burglaries engaged in by his group since he apparently has testified to all phases of his activities in this regard.

regarding ANGELICA (ANGIE) BASULTO, now ANGELICA ROHAN, who volunteered to work for FDLE during 1972 political conventions. ROHAN was the subject of a 6/8/73 MIAMI HERALD article captioned, "Florida Agency Admits Receiving VVAW Bug Tape From Lady Spy." In that article ROHAN reportedly admitted she once tried to convince a TV crew she was the "woman in Watergate," but now she says she was not. The same article reported that ROHAN has claimed under oath she was offered "a copy of the ITT papers" by PABLO FERNANDEZ, who reportedly told ROHAN these papers had been stolen in the burglary of the Chilean Embassy, Washington, D. C. FERNANDEZ has been interviewed by the Miami Office and in a signed statement denied he has any knowledge of the so-called ITT papers. He also denied any knowledge of the burglary of the Chilean Embassy. FERNANDEZ, a Cuban exile anti-CASTRO activist, has advised that he assisted ROHAN in making contacts with Cuban exile individuals and groups during the period of the Republican and Democratic National Conventions last summer. FERNANDEZ has indicated that he performed this service because ROHAN was working for FDLE.

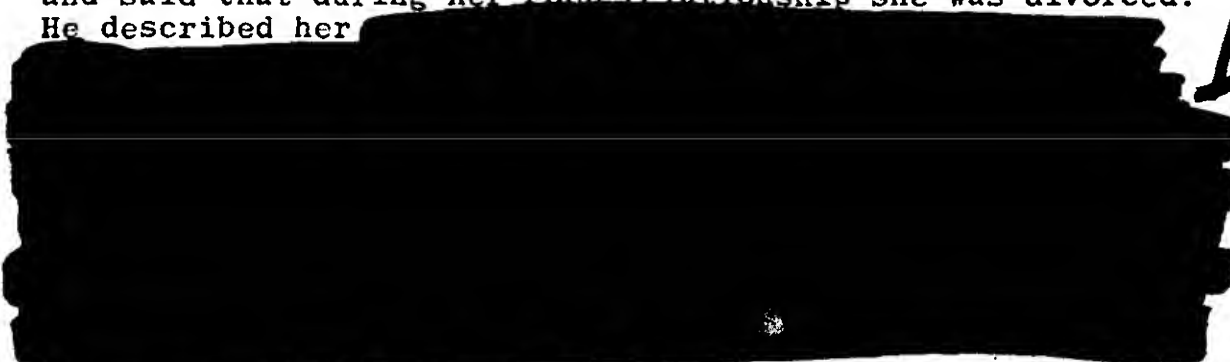

KEY, above, advised that information received from ROHAN, then BASULTO, during the Conventions was of no particular significance. Review of her written reports furnished by KEY showed this to be an accurate assessment. There was, however, one memo of possible interest concerning captioned investigations. This memo, copies of which are enclosed, sets out information from ROHAN to FDLE on 8/8/72. It is noted that in the memo there is mention of a "demonstration", not break in, at the Chilean Embassy. Also mentioned is an alleged offer from JOHN T. KELLY, CBS, for identification of two men who allegedly escaped from the scene of the Watergate arrests.

It is further noted that in the memo, a JORGE LUIS HERNANDEZ is alleged to have handled the financing of

MM 176-36

the Watergate incident and to have given \$700 to the VVAW. It would not seem that the same individual would be financing the Watergate burglary and contribute to the VVAW. At any rate, checks with Miami Office Cuban exile sources on 6/19/73 disclosed that JORGE LUIS HERNANDEZ is an announcer for Miami Spanish language radio station WQBA and is the editor of a Cuban exile newspaper, "Regreso (Return)", published at Miami. The HERNANDEZ family is conservative politically and is known to have had good relations with the Batista Regime in Cuba. There has been no prior indication of involvement by JORGE LUIS HERNANDEZ in Watergate.

KEY, above, noted that ROHAN was very emotional and said that during her EDLE relationship she was divorced. He described her

b7c

On 6/19/73 a JOHN T. KELLY telephonically contacted the Miami Office. He identified himself as a CBS News reporter and said he is working on a story regarding the VVAW and PABLO FERNANDEZ. He continued that FERNANDEZ reportedly is or was an FBI informant and wanted comments regarding FERNANDEZ. He was told "no comment."

The above mentioned KELLY has also reportedly been in contact with Cuban exile ANGEL FERRER, Miami, one of the participants in the trip to Washington, D. C., by Cuban exiles for the J. EDGAR HOOVER funeral. KELLY reportedly

MM 176-36

has offered FERRER as much as \$15,000 for his "story". KELLY apparently feels that FERRER may have been an unidentified participant in the "Watergate trial run." break in, which is known to have been participated in by six Cuban exiles, all identified.

The information in enclosed memo is disjointed. It was furnished by ROHAN during the time she was involved with FERNANDEZ. JACK KEY, above, feels that FERNANDEZ was the source for virtually all information furnished FDLE by ROHAN. He noted ROHAN was not a trained investigator and obviously was not adept at reporting names, places, events, etc, in coherent precise fashions.

A-1 8/8/72

The following comes from a Cuban informer of unknown reliability:

John T. Kelly from CBS is in Miami trying to get a story on the Watergate bugging incident. He is offering money for information. He is staying in room 822, Miami Springs Villas. He has told some people he contacted that if they could not get in touch with him, to call his boss, a man named Townsend, in NYC 765-4321, ext. 4114.

Jorge Luis Hernandez handled the financing of the Watergate incident. He is also supposed to have given \$700 to the Vietnam Veterans Against the War. No idea why. There was another incident before the Watergate in which Hernandez and Bernard Barker were involved.

They contacted a guy named Pablo Fernandez to now plan a disturbance at J. Edgar Hoover's funeral. Fernandez, Ronaldo Martinez and Angel Ferrer, who lives near 44th Ave. & 7th St., are supposed to have taken part in the funeral disturbance. A fourth guy, Reinaldo Pico, has been part of the group, and is now in Venezuela to escape the heat.

Ronaldo Martinez and John L. Batisti run a real estate office in the Little Havana Shopping Center across from the El Baturro Restaurant (2322 NW 7th St. - this would be across the street from B. Barker's place. Martinez and Batisti must work for Barker)

Mike Suarez, a man very close to Bebe Rebozo, spends a lot of time in this real estate office.

John Kelly of CBS contacted Pablo Fernandez and told him he has film of Fernandez, Ferrer, Pico and Martinez at Hoover's funeral.

Kelly has told people here that two other men escaped from the Watergate and were not arrested. He is willing to pay \$1,200 for their names. Kelly also believes that U. S. Customs was somehow involved in the Watergate incident, and that Customs somehow had something to do with the money that was paid.

Hernandez, according to the informer, and Barker are very tight at WQBA. They are now trying to organize demonstrations of some kind during the GOP convention.

The Watergate-Hoover crowd also had something to do with a demonstration at the Chilean Embassy.

Kelly is blonde, blue eyes, about 36, six-feet tall.

Investigation regarding GERALD AUSTER was predicated on an anonymous telephone call received by Miami Beach Police on May 17, 1973, in which caller advised that he had knowledge of a "trap" or "trace" on the Houston Post Office Box No. 27227 of GERALD AUSTER. The caller advised he had been ordered to keep his mouth shut about a letter that the Post Master in Houston had allegedly intercepted on June 15, 1972, from AUSTER's post office box. According to the caller, this letter was from C. G. ROBOZO of 95 W. MacIntyre Street, Key Biscayne, Miami, Florida. The caller stated the letter, which was addressed to AUSTER, read as follows: "Cease the operation of political provocation against the election of Dolph Briscoe and fly to Washington to meet with Bernard L. Barker". The above information was also furnished by the anonymous caller to the MIAMI HERALD NEWSPAPER, Miami, Florida. BERNARD L. BARKER was apprehended by Washington D. C. Police in act of burglarizing Democratic Party Headquarters, Washington, D.C. on June 17, 1972.

Inspector L. W. ENGLISH, United States Postal Service, Houston, Texas, advised he was called by a MARIAN COYLE (phonetic), whom he thought to be with the Miami Beach Police Department, on December 1, 1972, regarding the subscriber to Post Office Box 27227, Houston. ENGLISH advised he assumed this was in connection with establishing or verifying the identity of GERALD ROBERT AUSTER who had been arrested by the Miami Beach Police Department and apparently gave this as his address. ENGLISH stated at the time he furnished information to COYLE, the subscriber to the above Post Office box was GERALD ROBERT AUSTER who had subscribed to this box as of September 7, 1972, giving address of 601 Winsome, Houston, telephone 785-5275, and who exhibited Texas Drivers License Number 2565237 as identification. The above Post Office box was subscribed to in the name of Ski Team Diet, which ENGLISH felt was some type of mail order service. Post Office Box 27227, Houston, was closed on April 26, 1973, for non-payment of rent.

ENGLISH advised that on May 14, 1973, an individual from Mail Dispatch Service, Houston, attempted to pay the rent for the above Post Office box. When this individual was advised service to that box had already been cut off and a new application would have to be made, this individual filled out a forwarding order, having mail previously designated for Post Office Box 27227, Houston, forwarded to Post Office Box 968, Miami, Florida, 33101. The forwarding order was signed by WILEY WORD, Operations Manager, Mail Dispatch Service, Houston.

ENGLISH advised there has never been any trace, stop or any other check on mail received at Post Office Box 27227. ENGLISH also advised he had called the United States Postal Inspection Regional Headquarters in Fort Worth, Texas, and their index file contained no record of GERALD AUSTER.

ENGLISH further advised he has never received any inquiry or request from the Houston Police Department regarding GERALD AUSTER or any investigation involving him, and no letters were intercepted.

ENGLISH stated upon the insistence of MILLER, he gave him the name of Officer TOMMY HOFFBAUER of the Houston Police Department Intelligence Division, with whom he (ENGLISH) has close working relationship, as the individual to call to see if the Houston Police Department had any information regarding GERALD AUSTER.

Chicago's best known maker of surveillance equipment. There was some talk that STEVENS tried to get ARRINGTON's business, but was unsuccessful. The source would rate STEVENS "fair" in his ability as a manufacturer. The source could offer no explanation how MC CORD would become aware of STEVENS in the first place or why MC CORD would offer him a job making wiretap devices.

The following information, while probably not directly pertinent to the Watergate investigation, is set forth as further background of STEVENS and his activities:

CHARLES W. WATKINS, Assistant to Manager, Colby Inn, Mandeville Highway, telephone 892-2681, furnished the following information:

He does not know MICHAEL MARCUS STEVENS and does not recall receiving a call at the motel for or by him on March 1, 1973.

Their records show an individual whose last name was STEVENS registered there on March 1, 1973, and stayed for five nights. He had guest registration card 2492. He was part of a party of ten who were there during the Mardi Gras season and the entire party were guests of PHILLIP RAY ALLISON, Allison Flavors, Inc., 5461 N. East River Road, Chicago, Illinois. When this party checked out, all bills were paid by ALLISON. All registration cards were in the name of Allison Flavors, Inc. of the above address.

STEVENS came in a 1973 Mercury bearing current Illinois license HBE800. WATKINS described STEVENS as a white male, about 30 years of age, 5 feet 10 inches to 5 feet 11 inches, black hair, 170-180 pounds and well built. The motel has no record of his first name, but WATKINS felt certain he would be well-known to ALLISON.

Other persons in this party included ALLISON's daughter and a number of her guests as well as a Mr. and Mrs. JAMES POUK, 622 W. Bluff Street, Streator, Illinois, also a representative of Allison Flavors, Inc..

WATKINS stated that during the month of March they had no other guests from Chicago and no other guests named STEVENS, BERNARD GORDON or anyone with a name of ALISTO JOSEPH GIOVANNONI.

WATKINS added that the motel had no record of any long-distance calls made by STEVENS to Chicago or Washington, D.C..

BERNARD GORDON, 4827 North Sheridan, was contacted at 1745 West Devon, where he operates a small electronics shop. The interviewing Agents identified themselves to GORDON and advised him information was sought from him concerning MICHAEL STEVENS. GORDON furnished the following information:

He has been acquainted with MICHAEL STEVENS for about four years. In July, 1971, GORDON was operating ~~Audiotronic Laboratories~~ See on North Western Avenue. STEVENS came to him and asked him if he would be interested in working on some engineering projects STEVENS had lined up. According to STEVENS, these projects involved the development of various electronic devices for ~~Apeco Corporation~~ See. STEVENS claimed to have contacts with Apeco. GORDON agreed to work with STEVENS and moved his equipment to Stevens Research Labs at 2050 West Devon. For about one year, GORDON worked on STEVENS' projects, but none of them succeeded in developing a final product. During this time, STEVENS paid his office rent and purchased necessary equipment. GORDON received no salary. The only money he can recall receiving during this period was about \$300-\$400 he made working with STEVENS on debugging efforts. The two men would get about \$50 a job for this type of work. GORDON never knew MICHAEL STEVENS to have much money and there appeared to be very little income from Stevens Research Labs. GORDON would be in the office about three or four times a week. He did not know STEVENS to do much traveling.

About six months after GORDON began his business association with STEVENS, that is about January or February, 1972, STEVEN made a statement to GORDON that he (STEVENS) had permission from the Federal Communication Commission (FCC) to make surveillance equipment for United States government agencies, such as the Federal Bureau of Narcotics and Dangerous Drugs, Federal Bureau of Investigation (FBI) and Internal Revenue Service. He did not mention the Central Intelligence Agency (CIA). GORDON believes he recalls observing "official looking" papers in possession of STEVENS.

About this same time, STEVENS displayed to GORDON a transmitter small enough to fit inside a cigarette case. He asked GORDON to try to get a case for the transmitter. GORDON went to a store near Damen and North Avenues and had six cases made. He believed these were zinc or brass plated cases, costing less than \$2.00 a piece. STEVENS told GORDON that STEVENS was having an engineer design this transmitter, but STEVENS never identified the man. He did indicate the engineer was an elderly Chicago man, possibly in his 60's. GORDON gave the cases to STEVENS, but does not know if assembled devices were ever placed in them. He does not know what final disposition was made of the cases. GORDON saw only one complete unit which would not operate properly as an electronic surveillance device. In GORDON's opinion, STEVENS was not capable of designing and constructing sophisticated surveillance equipment. GORDON did not know who would manufacture surveillance devices for STEVENS if STEVENS needed a large number of sophisticated units to fulfill a contract. GORDON feels certain WINSTON ARRINGTON would not do it because of ill feeling between the two men. GORDON believes STEVENS bought most of his electronic parts from Newark Electronics and Motorola Company.

3
CG 139-263

About May, 1972, while working at Stevens Research Labs, GORDON received a telephone call from a man who said he was at the airport and who claimed he had an appointment with STEVENS. Shortly after the telephone call, an unknown man appeared at the shop and met with STEVENS. GORDON does not know what they discussed and STEVENS has never said anything about what was discussed. Shortly after the June 17 break-in at the Watergate Complex, STEVENS observed a television picture of JAMES W. MC CORD and told GORDON "that's the guy who was in here." Other than this comment, GORDON has never heard STEVENS say one word about the Watergate incident.

GORDON recalled that STEVENS made a telephone call to England, possibly to Scotland Yard. He does not know the nature of the telephone call, but he felt certain STEVENS recorded the conversation on tape. *See*

GORDON stated he has worked for ~~RMD Electronics~~, 4151 North Western Avenue, but has never worked for Alben Manufacturing Company.

To the best of GORDON's knowledge, Stevens Research Labs was not incorporated. He believed MICHAEL STEVENS had either a personal or a business bank account at South Central Bank and Trust Company, where STEVENS' mother-in-law is a bank officer.

See GORDON was questioned about his presence in Arizona in September, 1970, when he, STEVENS and SHERMAN ~~GREENE~~ were involved in a project which allegedly was in some way associated with the CIA. GORDON refused to discuss the Arizona situation because he was led to

4
CG 139-263

believe then, and still does believe, that the mission was secret and he would be killed if he talked about it. GORDON stated that to his knowledge, GREENE was not associated with Stevens Research Labs and was not involved in the Watergate incident. GREENE is employed at Toy World near Irving Park and Kedzie Avenue in Chicago.

GORDON stated he has suffered four heart attacks and one stroke. He was last hospitalized June 29 through July 16, 1972, at Weiss Memorial Hospital in Chicago.

In 1971, GORDON was adjudicated bankrupt in United States District Court (USDC), Chicago. During the last two years much of his financial support has come from his brother, Dr. JOSEPH L. GORDON, a dentist. Dr. GORDON resides at 5519 Madison in Morton Grove, Illinois. His office is at 1048 Bryn Mawr in Chicago.

The Regional Sales Office of Texas Instrument Corporation sells electronic parts, such as integrated circuits and diodes principally to original equipment manufacturers. There is a minimum item charge of \$30 per item and small orders (under 1000 pieces) are normally referred to various local distributors. Normally the regional sales office would not maintain sales records, since these are kept in the company's headquarters in Richardson, Texas. There were some purchase orders on file which Mrs. CALLAS reviewed, but she was unable to locate any record to indicate any business with MICHAEL STEVENS, Stevens Research Labs, ALISTO GIOVANNONNI or Audiotronics Laboratories. Mrs. CALLAS stated she is familiar with most of the direct customers of the regional sales office, but she could not recall transacting any business with STEVENS.

ROBERT F. BARCAL, Owner, Electronic Specialty Products, 8913 Cermak Road, furnished the following information:

Electronic Specialty Products sells and services stereos and two-way radio equipment. E.S.P. Leasing Corporation leases two-way radios and mobile telephones. He is the sole owner of both companies.

About one year ago, he received a telephone call from a man who identified himself as MICHAEL STEVENS. STEVENS said he had designed several electronic devices, including one capable of acting as a bugging device. He wanted to know if BARCAL would be interested in helping STEVENS assemble such devices. BARCAL indicated he would, and the two men met in a restaurant, in Glenview, Illinois, the next day. STEVENS said he was in the business of making devices to intercept oral communications, including a "cubeta" which would fit inside a multi-socket adapter. He said his transmitters were on frequencies not on the FM radio band. STEVENS claimed he had "secret clearance" and was authorized to make such devices. BARCAL told STEVENS he was not interested in assisting unless it could be shown that their manufacturing of surveillance equipment would be legal.

About a week later, STEVENS came to BARCAL's office and brought a telephone bugging device which BARCAL believed to be a fine piece of electronic equipment. It fit inside the mouth piece of a telephone.

STEVENS tested it and it operated well. The frequency was tunable to anything on the FM band that is, between 88 and 108 Mgh.

STEVENS also displayed a larger unit with an attached microphone. He said this was a "room bug". This unit was tested and it operated efficiently within a short range (less than 100 yards).

About two weeks later, STEVENS offered to pay BARCAL to build a prototype of a listening device. STEVENS threw \$50 on the table and told BARCAL to use it for expenses. BARCAL told STEVENS he did not have the time right then to work on the device, but STEVENS told BARCAL to keep the money anyway. About this time, STEVENS displayed to BARCAL a piece of paper with the top folded over so that BARCAL could not read the letterhead. The paper contained several typewritten paragraphs and a signature at the bottom. Underneath the signature BARCAL noted the designation, "Central Intelligence Agency". STEVENS told BARCAL that this letter authorized him to make bugging equipment for local police agencies and the United States Government.

About three or four weeks after the initial meeting in the restaurant, STEVENS brought in a transmitter which he wanted BARCAL to fix immediately. BARCAL told him the crystal was defective and a new one was needed. STEVENS then went to Motorola Company at 4545 West Augusta in Chicago and purchased a new crystal. After the crystal was installed, the device was operative. BARCAL believed it would transmit on a frequency of about 149 Mgh. STEVENS had with him a pocket pager

3
CG 139-263

which would pick up the transmission of this unit. STEVENS claimed that somebody else had built this particular unit and indicated only that this person was from Schaumburg, Illinois. BARCAL was able to locate in his office this transmitter and furnished it at this time to the Federal Bureau of Investigation (FBI).

BARCAL recalls that about the time the Watergate incident hit the newspapers, and the name of JAMES WALTER MC CORD became prominent, STEVENS told BARCAL that he hoped the investigation did not go any further because "I supplied them with the equipment." BARCAL did not believe STEVENS at that time and thought he was merely bragging.

STEVENS said little else about the Watergate incident except for a comment shortly after the plane crash in Chicago in which Mrs. E.H. HUNT died. STEVENS said that the money found on Mrs. HUNT was money she was bringing to him and was money owed to him for his bugging equipment.

Beginning about the first of the year, in 1973, BARCAL had several business deals with STEVENS. On one occasion STEVENS obtained 26 walkie-talkies from the Motorola Reconditioned Equipment Department for a price of \$2,730. STEVENS and BARCAL then cleaned up the walkie-talkies and either resold them or leased them at a profit. BARCAL stated that STEVENS dealt with one SAM CASTRIOTA at Motorola.

About March 17, 1973, STEVENS and BARCAL had a disagreement involving another walkie-talkie deal at Motorola. STEVENS had arranged for seven additional walkie-talkies to be delivered to himself and BARCAL from Motorola, but when the transaction was completed, STEVENS demanded that he be allowed to keep one walkie-talkie. BARCAL agreed only to later learn that STEVENS had taken another walkie-talkie without the knowledge of BARCAL.

STEVENS indicated to BARCAL at one point he was interested in buying McCann Engineering, a Chicago company located near Irving and Milwaukee, and using this company to manufacture bugging equipment.

BARCAL knew little of STEVENS' travels, although STEVENS told him he has flown all around the world on clandestine missions and in fact, had traveled to Washington, D.C. on several occasions, including as recently as March, 1973.

In BARCAL's opinion, MICHAEL STEVENS has the intellectual ability to design sophisticated electronic devices, however, BARCAL feels that STEVENS is one of those individuals who may not have the mechanical ability to make the design into a furnished product. STEVENS indicated that the individual in Schaumburg, Illinois, did the assembly of some of STEVENS devices and that a technician at RMD Electronics helped him on some projects.

BARCAL has not had any contact with STEVENS since March, 1973.

Robert F. BARCAL is a white male, born October 27, 1942, and he resides at 1522 South 58th Court in Cicero, Illinois.

LESTER BURACK, Legal Department, Motorola, Incorporated, furnished the following additional information:

The product bearing model number H03BNC-1102BQ is a tone-voice pager, approximately five and one quarter by two and one half by one and one sixteenth inches in size and weighing eleven and one fourth ounces. This unit is a receiver only. It receives a tone indicating a message is being transmitted from some source. A button on the pager is pressed and the message is then audibly received.

BURACK heard from SAM CASTRIOTA that MICHAEL STEVENS might be purchasing the units primarily to obtain the circuit boards contained therein.

On June 7, 1973, BURACK advised that Motorola employment records in Phoenix, Arizona indicate no employment for STEVENS under that name or the name of ALISTO GIOVANNONNI.

On May 21, 1973, MICHAEL STEVENS telephoned the Chicago Office of the Federal Bureau of Investigation (FBI) and inquired about the status of his request for FORCIC immunity. He said he had been notified by friends in ARIZ Peoria, Illinois that the FBI was making inquiry about him. ILL

On May 22, 1973, STEVENS again telephoned the DC Chicago FBI Office. He volunteered the information that he had a mobile phone in his car. The phone number LA was 661-4011 (car 773).

STEVENS said he had located a transmitter on the telephone pole outside his residence, and it appeared his phone was being tapped. He claimed he had a witness to the discovery of the tap. STEVENS would furnish no specific details about the device or its recovery and would not permit the FBI to observe the device. He was asked to photograph the device and to preserve it.

On May 22, 1973, MELBA GATES, 3217 North Kenmore, telephone number 549-0644, advised she is the mother of MICHAEL STEVENS. She stated her son was afraid for his personal safety and that someone had threatened his life. She stated it was her opinion MC CORD had used CIA credentials when he met STEVENS and STEVENS had contacted somebody who verified MC CORD's association with the CIA. Mrs. GATES said she would attempt to get her son to cooperate with the FBI investigation.

RE: JAMES WALTER MC CORD, ET AL
BURGLARY OF DEMOCRATIC PARTY
NATIONAL HEADQUARTERS
JUNE 17, 1972

On June 7, 1973, an unknown person telephonically (long distance) contacted the Seattle Office of the FBI and advised that he was involved in an illegal business which involved the purchasing of gold bullion outside the United States for persons in the United States. The unknown caller advised that approximately 75% of his clients are doctors.

The caller then advised that he recently observed a person who was testifying at the Senate Committee on the Watergate Hearings who had given him \$1,100,000. in cash to be deposited in foreign banks. The caller advised he charged a fee of \$11,000. for making the transactions and deposited approximately one third of the money in a Swiss Bank Corporation; one third in a Swiss Credit Bank; one third in the Bank of Nova Scotia and purchased \$100,000 worth of gold bullion which is placed in corporate custody in another country. The caller advised that he exchanged the money for travellers checks and has possession of the slips which were attached to the travellers checks. The caller then advised that he has delivered the receipts and certificates of ownership to one of the persons who testified at the Watergate Hearings.

The caller would not divulge his name nor the name of the person who had given him the \$1,100,000. until he had

some form of guarantee of immunity from prosecution. The caller was articulate and sounded to be a white male with no specific accent. He also sounded to be knowledgeable regarding foreign and domestic banking and general business procedures.

The caller advised he was presently in the Seattle, Washington area and would remain in the Seattle area until Sunday, June 10, 1973. The caller then advised he would make a return call to the FBI, Seattle office on Monday, June 11, 1973 in an effort to determine if immunity could be provided in return for information leading to the person who had given him \$1,100,000. to be deposited in foreign banks.

June 26, 1973
GENERAL INVESTIGATIVE DIVISION
SUMMARY

This concerns the burglary of Democratic National Headquarters, Washington, D. C., 6/17/72.

Attached relates results of interview of Norman Karl McKenzie, inmate Federal Correction Institute, Danbury, Connecticut, on June 25, 1973. (McKenzie has approximately 8 months to serve on a 4-year sentence in Interstate Transportation of Stolen Motor Vehicle and Illegal Entry. He admits to having served approximately 10 years in jail with at least six felony convictions and is described by Federal Correction Institute officials as a sophisticated, jail-type conman).

McKenzie claims to have become very friendly with E. Howard Hunt and that during the past week Hunt told him location of document prepared by high Government official immediately below President and Vice President, which document is alleged to set forth detailed instructions for Watergate bugging and cover-up activities. Document allegedly prepared by unnamed official to exonerate himself should he be implicated and likewise allegedly exonerate President Nixon.

According to McKenzie, two copies exist and claims Hunt acquired copy of document to exonerate or protect himself in event sentence too severe. McKenzie claims Hunt no longer needs document and has given him (McKenzie) permission to use same to bargain his way out of jail. McKenzie claims sent letter to President Nixon and Attorney General describing document requesting Attorney General to send representative to McKenzie on 6/28, or he would release document to press.

Document is allegedly in or near Baltimore, Maryland, and McKenzie inferred his attorney has access to same.

McKenzie claims he will turn document over to Government on the condition that he be immediately paroled.

SAC, New Haven, points out that in view of very short period of McKenzie's association with Hunt there is a serious reservation regarding McKenzie's veracity.

It is observed that McKenzie's story is highly unlikely and probably only for the purpose of getting himself out of prison. Even if a document such as he describes exists, release to the press would not appear to make any difference. However, in view of the possible relevance to a matter of national importance, Special Prosecutor Cox will be immediately advised.

**JAMES WALTER MC CORD, JR., ET AL.
BURGLARY OF DEMOCRATIC NATIONAL
COMMITTEE HEADQUARTERS, JUNE 17, 1972
INTERCEPTION OF COMMUNICATIONS**

On June 25, 1973, Norman Karl McKenzie, inmate, Federal Correctional Institute (FCI), Danbury, Connecticut, advised he has become very friendly with E. Howard Hunt while confined at FCI. He claims that during the past week Hunt told him of the location of a document prepared by an unidentified "high Government official immediately below the President and Vice-president." McKenzie described the document as being of two pages which sets out details of where instructions for the Watergate bugging originated, what the plan was, what happened and the cover-up activities.

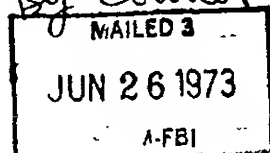

McKenzie believes the document was prepared by the unidentified official to exonerate himself should he become implicated. Likewise, the document allegedly exonerates President Nixon. It is also stated to show that Jeb Magruder perjured himself. McKenzie stated that Hunt allegedly has one of the two known copies and McKenzie understands that Hunt acquired the document and kept it to exonerate or protect himself in the event his sentence was too severe. He claims Hunt no longer needs the document as Hunt's sentence will be reversed due to Watergate testimony to date.

McKenzie said Hunt has given him permission to use the document to bargain his (McKenzie's) way out of jail. McKenzie claims that through information from Hunt, a friend of McKenzie outside of prison either has obtained the document or can gain access to it in minutes. He claims that over the past weekend, he wrote and mailed letters to President Nixon, advising that he had important papers regarding Watergate; and the the Attorney General, generally describing the document and requesting the Attorney General to send a representative to McKenzie by June 28, 1973, or McKenzie would release the document through the press. A similar letter allegedly

was mailed to the Attorney General on June 25, 1973, unsigned, by a friend of McKenzie outside of prison.

McKenzie indicated the document is in or near Baltimore, Maryland, and inferred that his attorney, whose name was not revealed, has access to it. He offered to turn the document over to an FBI Agent, which would thereafter be evaluated and validated. He said he would do this only on the condition that the Government agrees, in the presence of McKenzie and his attorney, to make a petition for immediate parole for McKenzie. McKenzie was told that any promise by the Government would be contingent on the document being not only valid, but also of sufficient importance to justify such action.

As a matter of information, [REDACTED]

It is to be noted that McKenzie arrived at FCI, Danbury, Connecticut, on June 8, 1973, and could not have met Hunt prior to June 12, 1973, since Hunt was elsewhere on a writ; further, McKenzie has been in segregation since June 22, 1973, based on inmate information and supporting evidence he was planning to escape on that date. He has approximately eight months to serve on a four-year sentence for Interstate Transportation of a Stolen Motor Vehicle and Illegal Entry, and admits to having served approximately ten years in jail, with at least six felony convictions. He is described by FCI officials as a sophisticated jail-type con man.

It is noted that any removal of McKenzie from FCI to the location of the above document apparently would need to be initiated through the Justice Department. It is further noted that McKenzie stated he wishes to turn the document over to Special Agent Robert G. O'Neil of the New Haven Office, if a decision is made to bring McKenzie to Baltimore to locate the document.

The foregoing is submitted as a matter of information and no action by the FBI is contemplated in the absence of a specific request from the Department.

SUBJECT: Arden Chambers

Angelo Lano
Washington Field Office

In the course of our investigation, we have learned that Roy Winchester, a Texas Republican fund raiser, delivered to the offices of the Finance Committee to Re-Elect the President a sum of \$700,000.00 in cash, checks and securities on the evening of April 5, or 6, 1973. Included in this sum was the \$100,000.00 of "Mexican Money." Winchester has testified that he gave a list of the contributors and fund raisers of the approximately \$150,000.00 in cash to Arden Chambers, 2400 Virginia Avenue, N.W., Washington, D.C., Maurice Stans' secretary at the Finance Committee. Although Chambers has been interviewed by the F.B.I., she has not been questioned with respect to the existence or whereabouts of this list. The F.B.I. should interview Chambers concerning this list. The agent assigned to interview Chambers should contact Roger Witten at this office prior to interviewing Chambers, for the purpose of discussing other questions which should be put to Chambers and for the purpose of discussing the advisability of interviewing her at the Special Prosecutor's office.

ENCLOSURE

139-4027-2411

June 18, 1973

Senator Samuel J. Ervin, Jr.
Chairman
Senate Select Committee on Presidential
Election Activities
Washington, D.C.

Dear Mr. Chairman:

My name is Larry A. Jobe and I presently reside at 6247 DeLoache, Dallas, Texas. At this time, I am Managing Partner of the Dallas office of Alexander Grant & Company, Certified Public Accountants.

From March 1969 until June 1972, I served as Assistant Secretary for Administration in the Department of Commerce. In that capacity I had responsibility for budget matters for the Department, among other functions.

During the testimony of Secretary Stans on Tuesday, June 12, 1973, a memorandum was introduced into the record. Secretary Stans was questioned about this particular memo and asked whether he knew anything about it.

I looked at the replay of this testimony on the evening of June 12, 1973. The memo, which was read and introduced into the record, was from Jeb Stuart Magruder to John N. Mitchell. This memo, dated July 28, 1971, indicated that Dick Whitney, then Executive Assistant to Secretary Stans, had informed Magruder that Secretary Stans had at his disposal a discretionary fund of approximately \$1 million within the Department of Commerce. The memo stated that this fund was available for use for certain activities which would be helpful to the reelection of the President. The memo went on to ask Mitchell whether Secretary Stans should talk with other cabinet officers to assist them in setting

up such a fund. At the bottom of the memo, there was a place for Approved, Disapproved or Comment.

I immediately recalled seeing this memorandum at the time I was Assistant Secretary of Commerce for Administration. Sometime prior to Mr. Whitney's leaving the Department in August 1977, Mr. Whitney came into my office with the above memorandum.

At that time, I took a great deal of time and effort to describe to Mr. Whitney the various funds which we did have available to the Department of Commerce. I told him that we had no funds that could be used for political purposes. I stated that we were totally constrained to use our funds only for those purposes for which they had been appropriated by the Congress. Mr. Whitney understood this fully and agreed with this conclusion.

As I recall, Mr. Whitney, at this time, requested that I then meet with Mr. Magruder in order to clarify the matter. Subsequently, I did meet with Mr. Magruder and had the similar discussion with him that I had with Mr. Whitney.

Mr. Magruder did not suggest any further course of action. I never heard more of the matter and dismissed it from my mind.

So far as I am aware, Mr. Stans had never seen that memorandum. I never showed it to him. I never mentioned the fact that I had seen such a memo.

The memorandum was not brought to Secretary Stans' attention because I did not think it necessary to bother him with it. In my mind the matter was properly disposed of.

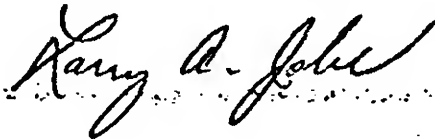

In 1971 we did establish a Secretarys' Reserve for departmental purposes. As I recall, the reserve was set at 1% of the general and administration expenses within the Department. The Secretary had the authority to designate the use of these funds; but for Departmental purposes only. I was given the responsibility to administer this fund working with the heads of the bureaus and agencies involved and the Secretary. As I recall, we did do a number of studies with these monies. Funded by this means were such projects as a multinational economic study, an analyses of the machine tool industry, experimental technology studies and establishment of a Patent Office production control system. Each of it was used by Secretary Stans' successor

after he had left the Department.

A study describing this fund and recommending its institution was prepared by my staff, competent career civil servants. The details of all projects in this fund were handled for me through the Office of Budget and Program Analysis, in the Department. This unit also monitored these projects.

I presume that this is the fund which was misconstrued in conversations between Magruder and Whitney. I would be pleased to answer any further questions which your Committee or its staff may have regarding this matter.

Sincerely yours,

LAJobe

cc: Maurice H. Stans

DL 139-166

Mr. JOBE added on Page Two of his affidavit he states he met with Mr. WHITNEY in August, 1973. This is obviously a typographical error and should be August, 1971.

The Secretary's Reserve had a dollar amount of approximately \$3,231,000 which was one percent of the general and administration expenses of the Commerce Department. \$2,656,000 was spent on the studies mentioned in the affidavit. The approximately \$500,000 left was designated for another agency of the Department.

He does not know the current location of the MAGRUDER memo but suggested if he had retained it, it surely would have been destroyed by now.

GENERAL INVESTIGATIVE DIVISION

The attached advises that Fred LaRue has pleaded guilty to an Information filed charging him with Obstruction of Justice in connection with the cover-up of the Watergate matter. As a matter of background, AUSA Donald Campbell, who provided this information to WFO, advised that he and AUSAs Silbert and Glanzer are no longer connected with the Staff of Special Prosecutor Cox and have no participation in further legal actions in this case. AUSA Campbell was not aware why LaRue was agreeable to handling his criminal acts in this fashion.

STURGIS invited him to participate in a planned riot at the convention. STURGIS later advised KAISER the riot was called off and something bigger was being planned. At this time STURGIS mentioned to KAISER the name of a nationally known figure, a businessman and not a politician, who was in charge of planning the financing and direction of this new operation. According to KAISER, this individual was at that time unknown in the Watergate investigation. KAISER at the time of the above contact stated he would furnish this information in exchange for a promise by the government, #1, for the safety of his family; #2, for employment security at his present employment, a service attendant at the Shamrock Service Station, 5501 Okeechobee Rd., Hialeah, Fla., and #3, for an opportunity to apply for state and federal pardons.

Numerous efforts were made to interview KAISER to further develop this information, both at his residence and place of employment. During this period KAISER was also hospitalized for leg surgery. In response to these efforts KAISER contacted the Miami Office and agreed to interview on 6/26/73. On this date KAISER appeared at the Miami Office accompanied by attorney EDWARD N. CLAUGHTON, JR., 34 S. E. 2nd Ave., Miami, and advised he had changed his mind about furnishing information to the FBI. He stated that he had already furnished the above-mentioned information to a member of the Watergate Committee and was awaiting action from that source.

The individual mentioned by KAISER above was subsequently identified by KAISER as JACK ANDERSON, newspaper columnist. D.C.

In view of KAISER's reputation and the pending criminal investigation no commitments were made in any way to KAISER during above contacts and the information furnished by him was accepted without comment. The above information has been brought to the attention of AUSA ROBERT C. BYRNE, SDF, Miami.

No further action being taken by Miami Office.

**JAMES WALTER MC COND, JR., ET AL.
BURGLARY OF DEMOCRATIC NATIONAL
COMMITTEE HEADQUARTERS, JUNE 17, 1972
INTERCEPTION OF COMMUNICATIONS**

Set forth hereafter is a listing of instructions and requests in connection with the investigation of captioned case. This is submitted in response to the memorandum of May 30, 1973, from Mr. Archibald Cox, Special Prosecutor, to the Acting Director, FBI. It is noted that the memorandum sets forth four categories of instructions and requests. The instructions and requests responsive to these four categories for the period of June 17, 1972, through May 30, 1973, are set forth hereafter in chronological order since that format appears to give proper continuity to the direction of this investigation. These instructions have been extracted from teletypes, airtels and memoranda. In addition a copy of the handwritten log maintained by the Extra-Duty Supervisors over the weekend of June 17-18, 1972, is attached since that log contains many initial instructions.

Communication instructs WFO to conduct investigation set forth in enclosed memo dated 5/24/73 from the Department of Justice. The requested investigation involves the interview of Robert Bennett of the Robert Mullen Company with regard to information that he acted as a conduit for contributions from Howard Hughes which would be an Election Laws violation.

139-4089-10 On 6/17/72, CIA advised that Bernard L. Barker and James Walter McCord had been employees and that security checks were negative concerning Fred Frank Fiorini, Eugenio R. Martinez, Virgilio R. Gonzales and their aliases. //

At 4:00 p.m. 6/27/73 Supervisors James R. Wagoner and James J. Dolan met with Messrs. Philip B. Heymann and Philip Bakes of the staff of Prosecutor Archibald Cox in Mr. Cox's offices.

The primary purpose of the meeting was to discuss the requests previously levied on the Bureau in the 6/19/73 memorandum to the Acting Director from James Vorenberg, Assistant Special Prosecutor. Mr. Heymann advised further consideration had been given as to the individuals previously named in the 6/19/73 memorandum regarding whom the FBI was precluded from interviewing.

He advised Bernard Barker, Virgilio Gonzalez, E. Rolando Martinez, Frank Anthony Sturgis, Jose Piedra and Joe Granada could be interviewed by the FBI in the event the FBI desired to do so.

Mr. Heymann advised John J. Caulfield, former White House and Department of Treasury official, had been interviewed by representatives of the Special Prosecutor's office. He advised Caulfield furnished information substantiating the alleged wiretap of Joseph Kraft, Washington newspaper reporter, as well as the alleged wiretap of Donald Nixon, brother of President Nixon. He advised in this regard it was the intent of the Special Prosecutor's office to interview John Reagan, former FBI Agent and former Security Officer for the Republican National Committee, and contact U. S. Treasury Department since wiretap on Nixon was apparently initiated by Treasury. He stated details of the 3 1973 Caulfield and Reagan interviews would be supplied to the FBI.

Mr. Heymann also advised that the Special Prosecutor's office intended to interview Kathleen Chenow, former secretary to G. Gordon Liddy and E. Howard Hunt, Jr. and

With regard to the victims of the alleged illegal activities referred to in the memorandum of 6/19/73 Mr. Heymann requested that these names be searched through FBI files in an effort to determine if any members of The White House Staff had during the pertinent periods requested information concerning them. Mr. Heymann pointed out the location of such requests could be indicative of White House interest and circumstantually tend to verify that these individuals were in fact victims of illegal activities by members of The White House Staff or persons in their employ. Mr. Heymann was advised that in connection with the Bureau's answer to the 6/19/73 memorandum this is being done.

This letter is to confirm a conversation had with you by Special Agent Angelo J. Lano regarding a request by you dated June 14, 1973, wherein you requested interviews of John Thomas and Janna Hruska of the White House Staff. On June 15, 1973, you advised that the interviews be held in abeyance. On June 26, 1973, Special Agent Lano was advised by Assistant Prosecutor George Framton that he and Assistant Prosecutor James Neal would interview Thomas.

On June 26, 1973, you advised Special Agent Lano to hold in abeyance the interview of Janna Hruska because this also would be done by your staff.

Accordingly, no interviews were conducted pursuant to this memorandum, however, Hruska had been interviewed previously by the FBI on May 21, 1973.

In addition, it is being pointed out that an investigation had been underway by the Federal Bureau of Investigation regarding a \$50,000 campaign contribution by the Lehigh Valley

SUBJECT: REQUEST OF SENATOR ERVIN TO
ATTORNEY GENERAL RICHARDSON
BY LETTER DATED JUNE 25, 1973, AND
REQUEST FROM OFFICE OF ATTORNEY
GENERAL FOR VIEWS OF FBI DATED
JUNE 28, 1973

James Walter McCord

Your note to me on June 28, 1973, asked me to provide an answer to the request from the Office of the Attorney General by June 29, 1973. The request was forwarded to you by a note from J. T. Smith of the Attorney General's staff and concerned a letter addressed to the Attorney General by Senator Ervin dated June 25, 1973. In his letter, Senator Ervin advised that the Select Committee on Presidential Campaign Activities had been advised that a number of files and records of former Attorney General Mitchell, relating directly to the Committee's investigation, had been retained by the Department of Justice. The note from Smith attached to a copy of the Senator's letter advised, "There don't seem to be DOJ files." The Smith request asked for "FBI thoughts on reasons past and present why wiretap information should be withheld." Also please screen the rest of the letter to see whether there are FBI files that are pertinent. . . ."

I discussed this matter at 5:00 p.m. with Supervisors W. Raymond Wannall and Thomas J. Smith of the Intelligence Division in the absence of Assistant Director Miller.

It does not appear that the FBI has any documentary material that would be covered by Senator Ervin's request. We have no files and records of former Attorney General John Mitchell relating to the investigation being conducted by the Select Committee. It should be noted, however, that we do have the original signed authorizations for the

Memorandum to the Acting Director
Re: Request of Senator Ervin to
Attorney General Richardson, etc.

17 wiretaps requested by the White House, all of which were signed personally by former Attorney General Mitchell. These authorizations are part of the FBI files and we do not construe them as files and records of the former Attorney General.

It should be further noted that FBI files indicate that summaries of some of the surveillance logs resulting from the surveillances instituted at White House request were furnished to former Attorney General John Mitchell. In preparing the defense to a current pending civil suit which arose as a result of disclosure of the wiretaps (Morton Halperin, et al. v. Henry Kissinger, et al., USDC, D.D.C., Civil Action No. 1187-73), it became necessary to search the Department files for the original documents furnished Mr. Mitchell, but the summaries could not be located in Department files and copies made from Bureau file copies of those summaries are being prepared for submission to the court. This item is mentioned in response to your request because it appears from FBI files that documents that would be covered by Senator Ervin's request were at one time sent to the Attorney General and if they exist today in the Department of Justice, would be subject to the disclosure request in the Senator's letter.

Assuming the Senator's letter will be read most broadly to include all parts of the Department of Justice, it may be important to note that the Special Prosecutor may have relevant files. Attached is a copy of a memorandum J. R. Wagoner to Mr. Putman dated 6/28/73, captioned "Conference 6/28/73 with Members of Special Prosecutor's Staff," which indicates that Mr. Cox's staff has collected information concerning the alleged wiretap of Joseph Kraft.

In summary, the FBI has no files or records of former Attorney General Mitchell.

The reasons for non-disclosure of wiretap information are:

1. The subject matter of the Senator's inquiry is presently the subject matter of a pending civil suit, Halperin, et al. v. Kissinger, et al., cited above, and comment concerning this matter could be detrimental to the suit.
2. Additional disclosures concerning wiretaps would inevitably result in additional civil suits against the Government.

30

Memorandum to the Acting Director
Re: Request of Senator Ervin to
Attorney General Richardson, etc.

3. Disclosure of the wiretap information would injure innocent persons and cause invasions of privacy.

4. Disclosure would generate a loss of confidence in the Government and provide additional fuel for allegations of Government misconduct.

5. Disclosures that concern foreign intelligence operations could be detrimental to the Government's conduct of foreign affairs and neutralize further use of this technique.

6. Disclosures could impair the likelihood of success in current investigations and reduce the possibilities of successful development of defectors in the resolution of espionage cases currently under investigation.

The arguments here presented are general arguments and not necessarily restricted to the potential harm that could be described to the disclosure of the particular wiretaps requested by the White House by Dr. Kissinger and others.

RECOMMENDATION:

That you advise the Attorney General that except for the original signed authorizations in our files, the FBI has no relevant files or records pertaining to the request in Senator Ervin's letter.

TO : William D. Ruckelshaus
Acting Director
Federal Bureau of Investigation

FROM : James Vorenberg
Assistant Special Prosecutor
Watergate Special Prosecution Force

SUBJECT: Alleged Illegal Activities (AIA)

DATE: July 3, 1973

Phil Heymann and Phil Bakes of this office met today with James Dolan and James Wagoner of the Bureau. This is to confirm their verbal understanding regarding your July 3 memorandum (with enclosures) regarding the above referenced subject.

This office should be furnished a report on all Bureau investigations conducted on Joseph Kraft, the newspaper columnist including reports on all White House requests regarding Kraft. (Refer to Alleged Illegal Activity (AIA) No. 2.)

AIA No. 6: Bennett should be interviewed and specifically the question of his contact or association with John Mitchell should be probed. Greenspun himself should be interviewed to determine whether a crime took place, and asked what possible motivations might prompt a break-in. Also, Mr. Wintee (ex-FBI agent who is reportedly a security man for Hughes Tool) should be interviewed.

AIA No. 11: DeMotte should be re-interviewed to determine what contact he had before July 26, 1971 but after January 1969 with John Caulfield, Anthony Ulasewicz, or any person(s) who indicated a connection with the White House, and the nature of these contacts. This office will be talking to Caulfield and Ulasewicz soon. The Special Prosecutor received a phone call from Cliff DeMotte on June 18, 1973. Mr. DeMotte is employed by the Region # 1 Office of GSA (Boston). He works out of the Danville, R.I., field office (401-267-2208). His home phone number is 617-699-7185. Mr. DeMotte supplied the following information:

On July 28, 1971, DeMotte was visited by one "Ed Warren", who DeMotte subsequently has identified as E. Howard Hunt. Approximately 10 days after the Watergate break-in, Mr. DeMotte went into the local office of the Secret Service to disclose the visit. He spoke with [REDACTED]. One week later he was contacted by [REDACTED].

Joe Finnigan of the FBI and subsequently was interviewed 3 or 4 times. The reason he called here is because he is upset over a Jack Anderson piece which appeared in the Washington Post. In short, he believed that his interviews with the Secret Service and FBI were confidential. (It should be noted that a more detailed account apparently appeared in a February 10, 1973 article in the Post by Woodward and Bernstein.) Mr. DeMotte indicated that he had nothing more to tell than he told the Secret Service and the FBI.

In view of the above, the Bureau should assure DeMotte that nothing he says will be supplied to persons outside the Department of Justice and that the investigation is at the specific request of the Special Prosecutor's office.

In addition to the foregoing, the following AIAs are currently being investigated by the Bureau and this office is awaiting reports and recommendations: AIA Nos. 1, 3, 4, 7, 8 (supplemental request of 6-27-73) 9, 10, 12 (interview with Anderson requested).

The following AIAs should warrant no further investigation at this time, although this office may determine at a future time that further action is advisable: AIA Nos. 5, 9-a, 14, 15, 16, 16-a, 17, 18, 19, 20.

The following AIA will be handled from this office and no further Bureau support is advisable at this time, although this office may determine at a future time that Bureau action is advisable: AIA No. 13.

Reference is made to paragraph 3 of your 7-3-73 memorandum regarding a Bureau search of its files for all White House requests concerning all individuals mentioned in AIAs. This project should be completed for all AIAs, including those for which no further Bureau action is requested.

In addition to the AIAs previously numbered and referred to, the following new AIAs are those for which Bureau action is requested:

James McCord and Bernard Barker should be interviewed to determine what knowledge, if any, they have of this matter. If there is any basis to the allegations, it is most likely that Barker or McCord was the person identified on the Senate hearings. The Seattle Field Office has advised this office that there were two anonymous phone calls, the second following 30 minutes after the first and which was placed long distance person-to-person to Agent Gene Gilliland from an unknown point of origin. The Seattle office informed this office that there is no way that the telephone company can determine from where the call was placed. This should be confirmed by the Seattle office -- together with an explanation as to why this is impossible.

Mr. Archibald Cox
Special Prosecutor
United States Department of Justice
Washington, D.C.

Dear Mr. Cox:

It is very possible that this letter represents a waste of time for both of us but I feel that the enclosed information ought to be brought to your attention.

I am engaged in a criminal defense practice in Chicago. During 1969, 1970 and 1971 I represented many defendants who were alleged to have been members of organizations such as the Black Panthers and the S.D.S. Weathermen. I represented one of the survivors of the raid that resulted in the death of Fred Hampton. I also represented Brian Flanagan, who was accused of seriously injuring Richard Elrod during the October 1969 "Days of Rage" of the Weathermen.

I bring this to your attention because it has occurred to me that during 1970 and 1971 my offices were the subject of three burglaries. My office during that time was located at 30 North La Salle Street, Chicago, Suite 635. I have enclosed copies of the police reports on those burglaries.

I have no further information to offer. It very well could be that these were burglaries for the usual reasons that burglars have. However, in each case no personal property was taken although some cash was stolen in one instance. On all occasions files in the various offices had been gone through.

Please feel free to make whatever use of this information you feel it merits. This letter is occasioned by the Newsweek magazine article that reported government agents committed

Memorandum

TO : William D. Ruckelshaus
Acting Director, FBI

DATE: July 2, 1973

FROM : James Vorenberg
Associate Special Prosecutor

SUBJECT: Photographing of Telephone Booths used by
Kalmbach and Ulasewicz

Herbert Kalmbach has told us that on June 30, 1972, in New York he agreed with Anthony Ulasewicz that henceforth they would communicate with each other concerning payment of money to potential Watergate defendants only from certain pay telephones. During the period from June 30, 1972 to September 28, 1972 there were a number of these "phone booth" calls between the two men; presumably these booths are located near Kalmbach's home or office in Newport Beach, and near Ulasewicz's home.

Kalmbach has agreed to identify for FBI agents the booth or booths he used to make these calls, in order that they can be photographed for possible evidentiary or other use.

Would you please contact Kalmbach and Ulasewicz and have them identify to agents the booth or booths in their respective cities that each used for these calls over the above-mentioned period; and photograph these booths in the presence of Ulasewicz and Kalmbach in order that these individuals may, if called as witnesses, identify the booths as the ones where the calls were made or received.

Ulasewicz can be reached at Box 151, Star Route, Hadley, New York 18235, (518) 696-2284, or at his son's residence, 53-16 195th St., Flushing, New York, (212) 357-9211.

Kalmbach can be reached at his law firm, Newport Financial Plaza, Newport Beach, CA, (714) 644-4111.

INTERCEPTION OF COMMUNICATIONS

Enclosed for Los Angeles and New York are two copies each and for WFO one copy of a memorandum dated 7/2/73, received from the Office of Special Prosecutor Cox. Los Angeles promptly contact Mr. Herbert Kalmbach and handle the investigative work indicated. New York similarly contact Mr. Anthony Ulasevics.

Bureau suggests that upon location of the telephone booths mentioned in the enclosed memorandum, the telephone numbers of these booths be obtained and contact be made promptly by New York and Los Angeles with the telephone company to determine if there is a record of long-distance calls for the pertinent period between these two telephone booths. In the event a subpoena is required for this information, WFO should be notified in order that appropriate contact in this regard may be made with Mr. Cox' staff, which is presently handling prosecutive action in this matter.

Photographs and other documentary evidence which may be obtained should be identified properly, listed on FD-204s of reports and are to be forwarded to the Bureau as enclosures to the reports in order that these may be transmitted to Mr. Cox as soon as possible.

U.S.A.
The name of Dick Tuck has come to our attention on several occasions during the Watergate investigation. On August 28, 1972, Gordon Strachan, then Staff Assistant to the President, described Tuck as the author of "Blank Conveyance" which reportedly deals with the field of PUBLICATI political harassment. Also, during an interview of Roger J. Stone, Jr., on May 1, 1973, it was disclosed that Herbert Porter, Director of Scheduling for the Committee to Reelect the President, characterized Tuck as a noted political prankster employed by the Democrats. In addition, it is believed Tuck's name in this regard was mentioned during the Select Committee on Presidential Campaign Activities hearings.

By Courier
Tuck has not been interviewed during this investigation as his interview would not have been logically consistent with the direction of the investigation. However, in view of the Special Prosecutor's interest in political harassment and if Tuck is, in fact, the expert in this field as indicated, the Special Prosecutor may wish to have Tuck interviewed concerning the tactics used by both the Democrats and the Republicans. Please advise what investigation, if any, is desired in this matter.

He told Agent to read the pamphlet again, and after so doing, the Agent again asked STROMBERG what information he had about the Watergate that was so vital. He again began talking about Mr. GRAY's cover-up and never did say why MITCHELL resigned except to imply that it was set forth in the pamphlet. The Agent then told STROMBERG that there was nothing in his letter that would shed any light on the matter, but he again inferred that he was getting a run-around. The Agent went back to the pamphlet and discussed the area with him, whereupon STROMBERG produced a copy of letter from Mr. GRAY dated about November 1972, wherein he replied that there was no violation of Federal Law for the FBI to investigate in STROMBERG's complaint.

The Agent told STROMBERG this and he again began saying that there was more to what GRAY and MITCHELL did. The Agent told STROMBERG that he, the Agent was aware of the facts surrounding a cover-up and saw nothing in the pamphlet that indicated STROMBERG had anything to offer except that the pamphlet alleged a wrong-doing involving a Judge, MITCHELL, and PETER G. PETERSON in dealing with STROMBERG's father's estate. The Agent told STROMBERG that that's what the pamphlet was about and there was nothing that could be done about it by the FBI. He again started talking about Mr. GRAY's cover-up and STROMBERG was told that this was not the topic of discussion, but that the pamphlet was. STROMBERG became very upset when the Agent made this statement and he said he would go to the Washington Post with the story that the FBI was not interested in the Watergate cover-up. The Agent again told STROMBERG that he, STROMBERG, wasn't talking about a cover-up, but only about his problem and allegations that JOHN MITCHELL resigned from being Attorney General so as not to get involved in STROMBERG's handling of his father's estate. STROMBERG again said he couldn't believe that the Agent wasn't interested in the Watergate story and left the office.

The Chicago Office was notified inasmuch as STROMBERG said he was going to the Washington Post with the names of all Agents involved and would tell them the story.

Re WFO tel call to Bureau and Chicago 7/5/73.

Enclosed for the Bureau is a pamphlet made available to SA LANO by complainant, RALPH OLOF STROMBERG. 139-4089-2411

At approximately 10:00 a.m. 7/5/73, RALPH OLOF STROMBERG appeared at WFO requesting to speak to Agent about Watergate case. SA LANO handling the matter responded and after introducing himself to Mr. STROMBERG, escorted him to an interview room whereupon STROMBERG was asked what his information was. After examining the Agent's credentials, he handed over the enclosed document. The Agent read the document and inquired as to what the document had to do with the Watergate case? STROMBERG said he had visited the Chicago Office and was told that this matter should be or was handled by the Washington Office. He said he went to Bureau Headquarters today, July 5, 1973 and in turn was referred to the Washington Field Office. He said it was apparent he was getting the run-around and said that even L. PATRICK GRAY was giving him the run-around in 1972 per the written response he had from Mr. GRAY. He said Mr. GRAY did not reveal everything about the cover-up and insisted no one knew why JOHN MITCHELL resigned in February 1972, instead of May 1972 as it was originally planned.

REGISTERED MAIL

Dear Mr. President:

On January 9, 1972, I sent you and Senator Percy a letter enclosing a copy of my circular entitled "The Honorable Lawyers". I informed you that it was my intention to have the U.S. Government honor my father, his patent rights and mine.

On January 27, 1972, you appointed Peter G. Peterson Secretary of Commerce. Inasmuch as the U.S. Patent Office is in the Commerce Department, Mr. Peterson is an unfortunate choice.

Late in 1966 I asked my boss, Peter G. Peterson, Chairman of the Board of Bell & Howell Company, for his help regarding a complaint I had made as executor of my father's estate against a firm of registered patent attorneys who had fraudulently prosecuted my dead father's patent applications. Senator Charles R. Percy, his predecessor as Chairman of the Board, had just been elected. I had written to him to seek his help but received no reply. Knowing that Bell & Howell and Mr. Peterson had special influence with Senator Percy, I asked Mr. Peterson for help. I discussed my complaint with Mr. Peterson and with Mr. Lawrence Howe, Senior Vice President of Bell & Howell, Law and Administration. I told Mr. Peterson and Mr. Howe that Judge Bernard Polikoff of the Cook County Probate Court, who had a copy of my complaint, had threatened to send me to jail if I did not close my father's estate, and that he threatened to remove me as executor and close the estate himself, if I did not. Having confidence that Mr. Peterson and Senator Percy would help, I told Judge Polikoff that Senator Percy would conduct a Senate Investigation into the practices of the U.S. Patent Office because of its refusal to do its duty to conduct a hearing to which I and the people were entitled. I warned Judge Polikoff that he would be in serious trouble if he carried out his threat in an obvious attempt to silence me. Senator Percy conducted no investigation, and Judge Polikoff carried out his threat.

Obviously, there exists a conspiracy to obstruct justice involving Senator Percy, the U.S. Patent Office, the Bar Association, the Probate Court, and others who had copies of my complaint and who had the duty to take action on that complaint but did not. Certainly Judge Polikoff could not have dared to carry out his threat unless he was acting with assurance from Senator Percy and the others that there would be no hearings or investigations.

This conspiracy is understandable in view of the fact that my father's estate was not protected at the time of his death, and was not represented in the U.S. Patent Office because it had no money to pay the patent law firm's legal fees. Understandably, Senator Percy, the U.S. Patent Office, and the others are afraid and ashamed to have the whole world learn that American registered patent attorneys earn their living robbing the dead. However, bad situations are never improved by covering them up, they only get worse. If Senator Percy had faced up to his responsibility, you would not be faced with the situation as it is now.

Mr. Peterson's involvement with Senator Percy makes it obvious that he has a conflict of interest. There is no way that he, as Secretary of Commerce, can order a full scale public hearing into this matter without involving his friend Senator Percy and himself.

If you have any alternative to asking for Mr. Peterson's resignation, I will be pleased to hear it. If you fail to honor my father, his patent rights and mine, you will bring shame upon yourself that will never be forgotten.

Sincerely,

Ralph Olof Stromberg

Mr. Peter G. Peterson, Secretary of Commerce
Mr. Charles R. Percy

attorney was no oversight, it was the result of his defending my father's estate of its right and need to be represented in the U.S. Patent Office. I will explain.

When I first suspected that Jerome Sladkey, the lawyer in charge of my father's estate was mishandling the estate because of his refusal to list my father's patent applications as assets for inheritance tax purposes, I explained my fears to my father's patent attorney, Mr. Francis V. Parker, Jr. of the firm of Parker, Markey & Plyer, 8 S. Michigan Ave., Chicago, Ill. He assured me that he would protect my father's patent rights by sending me to a lawyer who would properly represent the estate. He sent me to his friend Paul H. Heineke, of Heineke, Schreder, Marach & Cuncaman, 135 S. LaSalle Street.

Trusting Mr. Parker completely, I had no suspicion that he had sent me to Mr. Heineke so that the estate would not be properly represented. If the estate had been properly represented Mr. Heineke would have probated the estate, and he would have had Mr. Parker's law firm appointed by the Probate Court to represent the estate in the U.S. Patent Office. This is what Mr. Parker wanted to avoid, and did avoid, because the estate had no money to pay his firm's legal fees. Mr. Parker again misused my trust in him to deceive me into assigning the patents to those whom he had fraudulently represented.

This is no "technical error", it is fraud. Solicitor Cochran, Associate Solicitor Sears, Secretary of Commerce Peterson, John Mitchell, President Nixon, you, or anyone else can deny the truth, but not escape it. The reason for this shameful cover-up is obvious. The U.S. Government does not want the world to know how American registered patent attorneys steal a dead inventor's patent rights. The U.S. Government covering up for lawyers who rob a dead inventor is an insult to every American.

I suggest that you discuss this with President Nixon and Attorney General Kleindienst. I also suggest that you ask Solicitor Cochran if the U.S. Patent Office had the authority to prosecute my dead father's patent applications with unauthorized persons. He refuses to answer the question for me.

Sincerely,
Ralph O. Stromberg

Dear Mr. Stromberg:
The Attorney General has asked me to reply to your letter of January 9, 1972.

Solicitor Cochran and Associate Solicitor Sears of the United States Patent Office have informed us that your complaint concerning the continued prosecution by Mr. Parker of your father's patent applications after the time of his death without a new power of attorney from the estate has been fully investigated. It is the opinion of the Patent Office that although a technical error was committed by not obtaining a new power of attorney, the estate was not prejudiced. Furthermore, this technical noncompliance is not believed to be grounds for either disciplinary action against Mr. Parker or invalidation of the issued patents. Mr. Sears also informed us that you were notified by the Patent Office of its opinion at the conclusion of its investigation in June of 1970.

I regret that we cannot be of more assistance to you at this time.

Sincerely,

L. Patrick Gray III

L. PATRICK GRAY III
Assistant Attorney General

Commissioner of Patents
United States Patent Office
Washington, D. C.

Dear Sir:

This is to make a complaint against Mr. Francis W. Parker, Jr. of the patent law firm of Parker & Carter, Chicago, Illinois, in the manner in which he has handled the patent applications of my father, Olof E. E. Stromberg, after my father's death on January 9, 1960. At the time of his death, my father had on file in the United States Patent Office the following applications: Serial Numbers 646,132, 713,197, 812,157, and 820,193.

Mr. Parker, in a letter dated March 14, 1960, advised that these patent applications were doubtless assets of my father's estate, that something needed to be done with them because of his death, and that he would be glad to discuss the matter with the attorney in charge of my father's estate. The attorney in charge of the estate was Mr. Jerome Sladkey, Chicago, Illinois. Mr. Sladkey, in a letter dated March 31, 1960, advised that there was some question of the necessity of probating the estate in connection with the various patents. Shortly thereafter, Mr. Sladkey informed me that according to Mr. Parker it was not necessary to probate the estate.

Mr. Parker continued to prosecute these applications, and I assisted him in the prosecution in the belief that Mr. Parker and the firm of Parker & Carter were representing my father's estate. On October 15, 1963, after all of the applications had issued, Mr. Parker gave an opinion that all of my father's patents were exclusively licensed to the company of which Mr. Sladkey is the President. It is Mr. Parker's opinion, or so he says, that patent numbers 3,076,313 and 3,076,314 are improvements to patent number 2,183,371 and that, therefore, the company is exclusively licensed under the terms of a 1949 license contract. Although the license contract provides that all improvements or additions are to belong to my father and his two brothers, also deceased, Mr. Parker recommended the assignment of the patents to the company. I, of course, followed his recommendation.

In the summer of 1964 I had occasion to talk to another patent attorney and I asked his opinion, and he advised me that patent numbers 3,076,313 and 3,076,314 are not improvements or additions to patent number 2,183,371. I told Mr. Parker of this opinion and he told me I should have gotten that opinion before I assigned the patents. I asked him why, inasmuch as he had represented the estate? He told me that he had not represented the estate because he had not been appointed to represent the estate by the Probate Court, and that he regarded the company as his client.

Recently I have been informed by yet another patent attorney that Mr. Parker had no authority to prosecute the applications after my father's death because my father's power of attorney to Parker & Carter ended with his death.

Having done some patent law research myself I have learned that an exclusive license is the equivalent of an assignment and that the licensee does not need the legal title in a suit for infringement. The company has threatened the American Automobile Association with a suit for infringement. I have asked Mr. Parker, Mr. Sladkey, and the company to support their position that the company is exclusively licensed, and to protect the interests of my father's estate, by agreeing not to use the legal title in a law suit. They will not agree to do this. The conclusion is inescapable that Mr. Parker, Mr. Sladkey, and the company do not believe the company to be exclusively licensed and that the purpose of the opinion and recommendation was to persuade me to assign the legal title to the patents that had been illegally prosecuted for the company for almost four years prior to the opinion.

My father worked full time for the company from the time it was founded until he died, about ten years, without any pay whatsoever, because the company could not afford to pay him anything worthwhile. He had only the promise that the company would pay him when they could afford it, but nothing in writing that I know about. On January 7, 1960, two days before my father died, Mr. Sladkey wrote to my father. The last thing Mr. Sladkey ever told my father was that he would rather sell his stock in the company than to discuss my father's back pay with him. I, of course, did not see this at the time, or Mr. Sladkey would not have represented the estate.

The company, through Mr. Sladkey, denied any liability to my father's estate for his back pay. It is my opinion that because of the company's position on my father's back pay that the company did not have even a shop right in his patent applications, which of course, as you know, is only a non-exclusive non-transferable license that arises by way of estoppel, and that right arises on the assumption that the employee is paid for his work.

Because Mr. Parker had no power of attorney after my father's death, and because he was not representing the estate or its interests, his prosecution of the patent applications is wholly nugatory and the patents that have issued on this illegal prosecution are invalid.

All of the above mentioned letters, license contract, etc., are available for inspection. I request that the United States Patent Office conduct an investigation at an early date to ascertain that the facts herein contained are true, and that upon finding them to be true, invalidate the patents.

Sincerely yours,

Ralph O. Stromberg

DEMAND THE F.B.I. INVESTIGATE THE WATERGATE EXPLANATION

During the months that Peter G. Peterson was Secretary of Commerce it was generally agreed that he was doing an outstanding job. Great things were expected of him in Nixon's second term. After the election, however, Nixon quickly and quietly dumped him from his cabinet with no explanation. If there wasn't a very good reason for Peter G. Peterson not to be confirmed as Secretary of Commerce in the first place, there would have been no need to get rid of him, or for John Mitchell to resign as Attorney General on February 15, 1972, or to bug the Watergate.

L. Patrick Gray, in his reply of November 2 to my letter below, did not deny that my explanation is correct. He also did not investigate it. Therefore, I appeal to you the people to demand an F.B.I. investigation of my Watergate explanation. It is the best one you or they have heard, or are likely to hear.

REGISTERED MAIL

Dear Mr. Gray:

The following is my explanation for the bugging of Democratic Party Headquarters, otherwise known as the Watergate Caper.

You will remember that John Mitchell, as Attorney General, asked you, as Assistant Attorney General, to reply to my letter of January 9, 1972 to President Nixon, which you did on January 21. (copy enclosed) I did not reply to your letter because on January 27 President Nixon nominated Peter G. Peterson to be Secretary of Commerce. There was and remains a very good reason why Mr. Peterson should not be Secretary of Commerce. I wrote a letter to President Nixon on February 4 explaining the reason. (copy enclosed) At the time I wrote that letter I did not realize that Mr. Peterson had not been appointed, but only nominated, and that Justice Department clearance and Senate confirmation was needed.

It was announced that John Mitchell would resign as Attorney General in May to take over as President Nixon's Campaign Manager. When he actually did so on February 15 the newspapers said that his early resignation was unexpected and unexplained. Find the explanation, and I suggest that the explanation for the bugging of the Watergate and his resignation as the President's Campaign Manager will present itself.

I suggest that John Mitchell resigned as Attorney General early, suddenly, unexpectedly, on February 15 without explanation, to avoid responsibility for the Justice Department's clearance of Peter G. Peterson to the Senate Commerce Committee on or about February 18, which led to the Senate's wrongful confirmation of Mr. Peterson as Secretary of Commerce on February 21. I suggest that John Mitchell read my letter to President Nixon of February 4, as he had my letter to President Nixon of January 9, but instead of asking you to reply to it, as he did with the letter of January 9, he resigned suddenly without explanation. No reply to my letter of February 4 has been received.

I suggest that John Mitchell, realizing he had made a serious mistake when he panicked and resigned on February 15, ordered the bugging of Democratic Party Headquarters to find out if they knew why he did it. I suggest that after the bad publicity his Justice Department received during the Kleindienst confirmation hearings, he was afraid that the Democrats would demand more Senate hearings to investigate the circumstances that allowed Mr. Peterson's wrongful Justice Department clearance and Senate confirmation. When the buggers got caught in the act, John Mitchell had no alternative but to resign as the President's Campaign Manager to avoid a publicly forced resignation in the event the truth became public.

There is no better explanation for John Mitchell's early, sudden, unexpected, and unexplained resignation as Attorney General on February 15.

In regard to your letter of January 21, Solicitor Cochran and Associate Solicitor Sears, of the U.S. Patent Office, cover up the crime committed against my father's estate by calling it a "technical error." They know very well that my complaint against a class of registered patent attorneys deals with the fact that my father's estate was not represented in the U.S. Patent Office. (see copy of complaint enclosed) If the estate had been represented, and if Mr. Parker, through an oversight failed to obtain a new power of attorney through the Probate Court, then that oversight could be called a "technical error." However, his failure to file a new power of

This is in response to memorandum W. M. Felt to Mr. Walters dated 5/22/73 captioned "Watergate" (attached).

Set forth below are specific publicized allegations concerning the activities of former Acting Director Gray from May, 1972, to the present, and individual responses and analyses thereto from our files. This is a separate project by the Inspection Division as part of an on-going investigation into various aspects of Watergate, Ellsberg, and related matters. Mr. Gray's confirmation testimony is being reviewed separately against material in the Watergate file by the General Investigative Division. WFO has advised the Grand Jury inquiry into the involvement of Gray and others into the alleged destruction of material has been completed; however, we are not privy to that testimony.

This project has been coordinated with personnel in the General Investigative Division, Press Services Office, and Office of Legal Counsel.

DATE OF REVIEW *6/26/93*

Time Magazine, issue of 7/3/72, page 11, indicates that Gray denied he had met with former Attorney General John Mitchell over the weekend of 6/16-19/72 at Newport Beach, California. The article relates "The first suspicion arose when Mitchell and Acting FBI Director L. Patrick Gray were both at the Newporter Inn in California's Newport Beach the day after the arrests. But both denied seeing the other man there. "The hotel is a big place, says Gray, I was in room 331, the Mitchells were in a villa. *One of my Agents told me the Mitchells were there.*"

FACTS: Inquiry at our Los Angeles Office disclosed the following composite summary of activities of Gray and Mitchell: Both arrived at the Los Angeles International Airport 6/16/72 (Friday) approximately 6 hours apart. Gray stayed at the Beverly Wilshire Hotel and Mitchell at the Beverly Hills Hotel (approximately 1 1/2 miles away). On 6/16/72 Gray visited the FBI Office, had a press conference and a dinner speech at his hotel while Mitchell's activities and/or itinerary were not known to the Los Angeles FBI. On Saturday, 6/17/72, Gray departed his hotel

for Santa Ana and arrived at the Newporter Inn, Newport Beach, for lunch and at approximately 2:30 PM cancelled original plans to go to Palm Springs and arrangements were made for overnight stay at Newporter Inn. Mitchell's only known itinerary on 6/17/72 included Republican meeting with Governor Reagan, press conference and ultimate return to his hotel after 2 PM. On Sunday, 6/18/72, Mitchell arrived at Newporter Inn at approximately 3 PM and an unidentified member of Mitchell's party inquired of our Agents where Gray was. When asked why, the individual responded that inquiry was made for "Mr. Mitchell." This individual was directed to the pool area of the Newporter Inn where Gray and his wife were sunning. No information was developed regarding an observed contact between Gray and Mitchell at that time or any previous time during their respective stays in the Los Angeles area.

At approximately 5 PM, 6/18/72, Gray departed the Newporter Inn for Palm Springs and Mitchell remained at the Inn overnight. Gray then departed Palm Springs at 11:50 AM, 6/19/72, while Mitchell departed the same date from Los Angeles at approximately 10:15 AM.

It is noted that former SAC Wesley G. Grapp (now retired) declined to be interviewed on advice of counsel. Since he was with Gray, it is possible that he was the individual who informed Gray that Mitchell was expected at the Newporter Inn.

SA Angelo Lano, WFO, advised Frederick LaRue, Committee to Re-elect the President (CRP), advised he did meet with Gray at the Newporter Inn, Newport Beach, California, during the late afternoon of 6/18/72.

Review of pertinent files failed to indicate any additional information alluding to the possibility that Gray met with Mitchell at this particular time.

ALLEGATION:

The Washington Capital News Service for October 25, 1972, reported under a Tampa, Florida, by-line that Gray on October 24, 1972, denied reports that he had warned President Nixon that there were direct links to the White House in the Watergate bugging case. It was reported that Gray told newsmen he had made "no recommendations to the President or to Dean that they do anything with regard to that particular investigation." Gray was told Daniel Schorr (CBS newsman) had said that Gray warned Nixon that the FBI had established more serious direct links to the White House in the Watergate investigation. "That is false" said Gray.

Memo for Mr. Jacobson
Re: Watergate

FACTS: Review of the files failed to disclose confirmation as of 10/25/72 that Gray had definitely indicated to the President of serious implications involving the White House in the investigation to date. The files show in a memorandum dated 6/22/72 (a running log begun on that date) prepared by former Assistant Director Charles W. Bates, that on 7/3/72 Bates had a conversation with Gray and SAC Robert G. Kunkel in which Gray commented he did not feel John Dean or Charles Colson were involved in any way in the Watergate case but he had the feeling that John Ehrlichman "was caught up in something." Later, during the Summer of 1972, on an unrecalled date, W. Mark Felt, former Acting Associate Director, stated Gray advised him that in Gray's opinion there were possibly higher -ups involved in the Watergate investigation. Specifically, however, the files do not disclose Gray had as of 10/25/72 "suspicions" concerning ultimate responsibility for Watergate that he expressed or indicated in writing at any time thereafter. The first known reporting of concern that higher -ups in the White House were involved and a subsequent notification of the President was set forth in Gray's testimony of 5/24/73 as set forth below.

The New York Times for 5/25/73, page 17, discloses Gray in testimony before the Senate Appropriations Subcommittee on 5/24/73 reported he had warned President Nixon on July 6, 1972, that "people on your staff are trying to mortally wound you" by hampering the FBI investigation into Watergate. His testimony as recounted by Senator John L. McClellan of Arkansas, related to a conversation that Gray had with the President after Nixon had called him to congratulate the Bureau on a successful handling of an airline hijacking and Gray reportedly warned Nixon of his concern. Mr. Gray quoted the President as saying to him, "Continue to conduct your aggressive and thorough investigation."

ALLEGATION:

Time Magazine, issue of 11/6/72, page 48, reports that at the request of the President, Gray forwarded a teletype to 21 field offices in 14 states requesting law and order material for use in President Nixon's campaign.

FACTS: This action attributed to Gray is inaccurate. Files show that he was out of town on September 8, 1972, when the White House memorandum requesting criminal justice information for use in the President's campaign was forwarded the Bureau through the office of the Deputy Attorney General. The Deputy Attorney General forwarded it to the Acting Director asking for a response "as quickly as possible." Gray's Executive Assistant routed it to Crime Research Division for

handling and a teletype was sent requesting a reply by 9/11/72. Gray's first knowledge of this matter, according to files, was on 9/12/72 and he has indicated that this was an error in judgment in transmitting the White House request to the various FBI field offices.

A review of our files does not disclose Gray in writing ever indicated an error in judgment had been committed in transmitting the White House request to the field. However, it was the recollection of the Press Services Office that Gray later had made comments in public that although the error was one charged to a subordinate, it was his overall responsibility as head of the FBI. Gray took no corrective action at the time of this incident. The material was correlated and placed in form suitable for dissemination on 9/11/72 by the former Crime Research Division and forwarded by cover memorandum the same day to the Deputy Attorney General. It is not known from review of our files if and when the material was sent to the White House. Gray on 9/8/72 was in Butte, Montana, for a speech and office visit and did not return to his office until the afternoon of 9/12/72. At that time the material had already been dispatched to the Department. Gray did not approve in writing the transmission to the Department and ultimately to the White House, if that is the case, nor do the files show he orally approved of the handling of this material in that fashion.

ALLEGATION:

The Washington Post of 1/18/73, page A-8, points out that certain telephone numbers had been discovered in an address book belonging to Eugenio R. Martinez, Watergate defendant, one of which contains an entry "Fernando Madrigal, 1202 Northwest 31st Avenue, Fountainbleau Hotel, 649-1007." Madrigal, when interviewed by Post reporters, alleged he has never been contacted or interviewed by the FBI.

FACTS: Upon publication of the Washington Post article Miami was requested to furnish FBIHQ with the facts concerning the Madrigal situation referred to above. Miami teletype 1/18/73 discloses all Miami area numbers from the Martinez address book had been identified as to subscribers. When determined to be an individual, as contrasted to a hotel or business, the name was searched through Miami indices and those individuals were considered for interview.

During the Miami Office review, Miami identified aliases used by 6 of the 7 subjects in the Watergate case and located a phone number at the White House used by Hunt and numbers at CRP used by Liddy. The Martinez address book was reviewed and evaluated by 5 Miami Agents assigned exclusively to Cuban matters and CIA liaison who all have a broad

knowledge and insight into the Latin community. This book and the numbers contained therein were discussed in several daily conferences held with the complete Squad #4 in Miami consisting of 14 Agents for benefit of their investigative knowledge. Targets for interview were logically selected by Supervisor Robert L. Wilson, Miami Office, who had the benefit of thinking and experience of the above 19 Agents. It was noted at the time of review that many individuals listed in the Martinez telephone book had previously been interviewed and many others were known to both Agents and sources of the Miami Division. Based upon the above review and evaluation, logical subjects for interview were selected and apparently Madrigal was not so considered. He was not interviewed subsequent to the above inquiry and no further consideration was made to interview him after the Washington Post article appeared.

ALLEGATION: (Donald H. Segretti)

The New York Times issue of 2/6/73, page 35, claimed "It also has been reliably reported that the FBI under Mr. Gray made no real investigation of the political espionage and sabotage activities allegedly planned last year by Donald H. Segretti."

The Evening Star issue of 2/12/73, page A-2, indicates the Justice Department has begun an investigation of Segretti for possible violation of printing or distributing unsigned or falsely signed political literature.

FACTS: Files show based upon reports on 10/10/72 that Segretti had apparently tried to hire three lawyers to handle some kind of espionage, sabotage, or harassment of the Democrats. Assistant Attorney General Henry Petersen, Criminal Division, Department of Justice, was contacted on 10/17/72. As of that day, Petersen had personally been furnished 87 reports and other communications. He advised he was aware of the Bureau's investigation to date of Segretti including allegations of Segretti's political harassment activities and attempts to recruit personnel to assist him. Mr. Petersen said at the time he did not believe Segretti's activities were in violation of a Federal Statute and he could see no basis for requesting any additional investigation of Segretti by the FBI at that time. However, in an unrelated matter on October 25, 1972, the Department requested the Bureau to initiate an Election Law investigation in an Unknown Subject case involving scurrilous attacks against Senators Humphrey and Jackson. The investigation later indicated Segretti was involved and the Bureau's findings were presented to a Federal Grand Jury in Orlando, Florida, which returned indictments against Segretti on 5/4/73.

Currently there is an extensive investigation involving Segretti's activities being conducted upon a specific request from Mr. Cox.

Memo for Mr. Jacobson
Re: Watergate

ALLEGATION:

The New York Post issue of 3/13/73, page 1, contains an article which indicates that on 3/12/73 the Senate Judiciary Committee received an affidavit prepared by Judith Hoback, an employee of the Committee to Reelect the President (CRP) that within 48 hours of her private interview with the FBI she was confronted by Kenneth Wells Parkinson, CRP attorney, concerning her FBI interview.

FACTS: Our files show Hoback was interviewed on 9 separate occasions either in person or telephonically and the only one on a strictly confidential basis was an interview conducted solely by WFO Agents on 7/18/72. Results of this interview were furnished FBIHQ by WFO teletype 7/19/72 which was initialed as having been read by Gray on 7/20/72 at 10:12 PM. During this 7/18/72 interview Hoback, secretary and bookkeeper of Hugh W. Sloan, Jr., confidentially advised our Agents of certain financial disbursements authorized by Sloan during the period February through April, 1972, to G. Gordon Liddy and others. While she was subsequently reinterviewed on other occasions, according to her affidavit of 3/10/73 made available to the Senate Judiciary Committee, Hoback referred to the above 7/18/72 interview and further advises she was contacted "about one week later" by Agents and Assistant U. S. Attorney Earl Silbert. Her affidavit continues that within 48 hours of this last interview she was contacted by Parkinson and others regarding her FBI interview. The facts are she was interviewed by Assistant U. S. Attorney Silbert and a member of his staff during the evening of 7/25/72 with Bureau Agents present but since it was Silbert's interview, no FD -302 of this contact was prepared. WFO daily summary teletype of 7/26/72 reporting this interview was seen by Gray on 7/27/72. Our files show no record of actually when she was confronted by Parkinson as she never mentioned this alleged confrontation to Agents in later interviews. She continued to be cooperative in later contacts and the Bureau continued to accept information volunteered by her.

The files contain no data as to how Parkinson allegedly knew of Hoback's confidential contact with the FBI. A possibility has been suggested that it could have been mere suspicion on his part or the result of talk around Hoback's office in view of the large number of interviews conducted involving this individual.

ALLEGATION:

The 3/26/73 issue of Time Magazine, page 25, in discussing Donald Segretti, points out "Later when three FBI Agents insisted on pushing the Watergate investigation to question White House involvement, two were transferred by Gray to bureaus outside Washington and one retired rather than be transferred."

~~CONFIDENTIAL~~

Memo for Mr. Jacobson
Re: Watergate

FACTS: This implication is not true. Files show Special Agents Charles W. Bates, Robert G. Kunkel, and Charles Bolz are no longer assigned at FBIHQ.

Mr. Bates, by letter 10/3/72, addressed to Gray, expressed his personal request to go to San Francisco as SAC. He stated he was not unhappy with his assignment as Assistant Director but felt he could make a more substantial contribution to the FBI in the field. He is currently SAC at San Francisco.

Mr. Kunkel, by letter 9/29/72, was transferred from WFO to St. Louis as SAC at no change in grade or salary.

b7c

[REDACTED] This incident and the action against Mr. Kunkel had absolutely no connection whatsoever with Watergate.

Mr. Bolz by letter 12/6/72 to Gray stated his responsibilities to his family require he remain in the Washington area and he stated he is aware of his obligation to the Bureau to be available for all assignments. Therefore, in deference to his family he was resigning to take another position. His resignation was accepted and he is now with the Department of Housing and Urban Development.

ALLEGATION:

The Washington Post Times Herald of April 27, 1973, page A-1, contained an article captioned "Gray Destroyed Hunt's Kennedy File After Parlay With Ehrlichman, Dean," which reports Gray was told by Ehrlichman and Dean that the documents were related to national security matters. Gray said he never examined the papers and learned recently what the documents actually were when he was questioned by Assistant Attorney General Petersen on April 16, 1973.

The May 7, 1973, issue of Time Magazine, page 18, disclosed Gray had confided to "friends" that he planned to inform the Federal Grand Jury in Washington of the circumstances concerning his handling of two files furnished him by John Dean, which contained certain papers belonging to E. Howard Hunt.

On 5/12/73 the issue of the Sunday News (New York), page 2, stated Gray on 5/10/73 reportedly informed the Senate Watergate Committee that on 6/28/72 "he was handed two file holders by former White House Counsel John W. Dean, III, in Ehrlichman's office and was told 'these should never see the light of day.' Gray subsequently learned that the files were taken from Hunt's White House safe.... He did not burn the files several days after the June 28 meeting, as he had earlier told Senator Lowell P. Weicker (Republican - Connecticut), but instead took them to his home in Connecticut and kept them hidden there about 6 months. Gray still insisted...

he never looked at the classified documents given him by Dean. He said he burned them 'during the Christmas holidays' in the incinerator at his Connecticut home. "

FACTS: With regard to efforts by the FBI to determine the full facts and circumstances concerning the handling of certain property furnished Gray by John Dean and subsequently destroyed by Gray, a request was sent to the Criminal Division of the Department of Justice on May 4, 1973. Specific approval was requested to institute the following investigation by the FBI:

1. An inventory and physical description of the property.
2. Establish the ownership of each item of property.
3. Determine whether any of the property had any evidentiary value in connection with the Watergate investigation or any other violation of law.
4. Determine the intention of the transferor and that of the transferee in connection with the transfer of the property.
5. Determine whether there was any conspiratorial agreement in connection with the transfer and identify the conspirators.
6. Determine whether any copies of the property or any portions thereof were made; the current location of any such copies which may exist; whether any notes or other summaries of the contents of the property were made; the current location of any such notes or summaries or copies thereof which exist.
7. Determine details as to the disposition of the property following receipt by Mr. Gray.
8. Identify and interview all witnesses to the transfer, any agreement, any copying, summarizing, and disposition of the property. At a minimum those interviewed should include Dean, Gray, Ehrlichman, and Hunt.
9. Examine the testimony of the confirmation hearings concerning Mr. Gray's nomination for any indication of inconsistent testimony which might constitute perjury.

A letter was addressed to Mr. Cox on June 11, 1973, alerting him as to our request and pointing out that Assistant U. S. Attorney Earl Silbert had advised WFO Agents the Grand Jury inquiry re Gray and others in the alleged destruction of material had been completed and all leads emanating from these proceedings have been completed.

Re: Watergate

ALLEGATION:

The Evening Star of 6/4/73, page A-10, in an article captioned "Excerpts from CIA Watergate Memos," disclosed Lieutenant General Vernon A. Walters, Deputy Director, CIA, on 7/28/72 met with Gray at 11:00 AM for a meeting, the purpose of which was to clarify inquiries re "Cleo." Walters stated "Cleo" was Mr. Cleo (blank) an electronics engineer who was in contact with Mr. Hunt during August, 1971, and furnished Gray with a short unsigned memorandum.

FACTS:

31 [REDACTED]

ALLEGATION:

Since the outset of the Watergate investigation, numerous public allegations have appeared suggesting the possibility that this investigation was impeded by instructions of Mr. Gray.

FACTS: Review of our files discloses investigation of the Watergate case was not impeded by any specific or implied instructions written by Gray or the Department of Justice. Certain actions of Gray may possibly be viewed as having impeded our investigation. Specifically, his decision to allow John Dean to sit in on interviews with all White House personnel may have had a deleterious effect on investigation of White House personnel. The presence of counsel during interviews is a right that may be required or waived by the interviewee. Obviously from an investigator's standpoint, having Dean present at interviews may well have had the effect of limiting pertinent information furnished to our Agents during the course of the interview. Although eventually all leads which WFO desired to be covered were handled with exception of an interview of a known CIA employee, delays were encountered in conducting pertinent interviews. The exact reasons for these delays are not known. Examples: WFO teletype 6/19/72 requested authority to interview Charles W. Colson. A memorandum was prepared during the afternoon of 6/19/72 (Monday) recommending Bureau liaison handle this interview but this was not approved until the morning of 6/22/72

Re: Watergate

(Thursday) [REDACTED]

B1

[REDACTED] Apparently at Gray's instructions this lead was not immediately covered. The background facts are that by teletype 6/26/72 from WFO to the Bureau and Alexandria a lead was set out to interview Chenow in Alexandria based upon results of investigation and a telephone number in subject Martinez' address book was connected with Chenow. Alexandria determined Chenow was in England at a specific address and that she was the former secretary to David R. Young in the White House. [REDACTED]

B1

Supervisor Charles E. Nuzum, General Investigative Division, recalls Gray advised him on an unrecalled date that Chenow was being brought back to the United States in a military aircraft in company with Fred Fielding of the White House Staff. We don't know when this was done or when she returned to Washington. When interviewed 7/3/72 in Dean's presence, she never questioned the reasons or circumstances why an arrangement was made by her former superior, David Young, to install a private phone in Room 16, Executive Office Building, for the exclusive use of subject Hunt, which phone was to be billed to Chenow's private residence in Alexandria. [REDACTED]

B1

[REDACTED] Dahlberg was subsequently interviewed by the Minneapolis Office on 7/6/72 based upon a memorandum Bates to Bolz 7/6/72 which confirmed oral instructions received from Gray. [REDACTED]

In considering possible impediments to obtaining the full facts of the Watergate case the furnishing of numerous FBI reports and other communications by Gray to Dean must be considered. The facts concerning this development became known for the first time when Gray announced it during a 2/5/73 meeting attended by Felt, Assistant Director Robert E. Gebhardt, SAC John J. McDermott (WFO), Supervisors Nuzum and N. S. Irwin, as well as David Kinley of Gray's staff. Up to this time no one outside of Gray's staff had any knowledge of what had transpired and there are no written memoranda concerning this development. It is true

Memo for Mr. Jacobson
Re: Watergate

there is no evidence in the files indicating this action by Gray impeded our investigation from an investigator's standpoint. Access by Dean to our investigation would logically indicate to him what information had been developed and which would enable him to work out strategy to cover up the case. Likewise, the destruction by Gray of documents apparently furnished him from Hunt's safe would have impeded the investigation although this cannot be stated positively since we do not know what specific material he destroyed, if any.

During Gray's confirmation hearings the following Agents were telephonically quizzed on 3/2/73 by Assistant Director Gebhardt with Inspector R. E. Gallagher listening in as to whether there were any leads FBI Agents wished to follow and were not permitted to do so. In all instances, the answer was an unequivocal no with the exception of WFO Supervisor Ruhl who referred to the delay in interviewing Manuel Ogarrio and Kenneth Dahlberg. The Agents contacted were Angelo Lano, case Agent; Supervisor John Ruhl, case Supervisor; former Section Chief Charles Bolz, Accounting and Fraud Section; Supervisor Charles Nuzum, Accounting and Fraud Section; SAC Charles Bates, former Assistant Director at the time of the case; SAC Robert Kunkel, former SAC, WFO; Supervisor Robert Wilson, Miami Office case Agent; SA Guilfoyle, Miami Office case Agent; SAC McDermott, WFO. Contact with Messrs. McDermott, Ruhl, Lano and Nuzum on 6/22/73 indicate their responses to date remain the same as their answers as of 3/2/73.

The Office of Legal Counsel has prepared an analysis determining if there was a violation of law, Executive Order, or Departmental regulation in Gray's offer or actual delivery of FBI files and memoranda to members of Congress. It is noted during Gray's confirmation hearings that he offered the Judiciary Committee "...any member of the U. S. Senate who wishes to examine the investigative file of the Federal Bureau of Investigation in this matter may do so. . . ." Office of Legal Counsel's opinion is as follows:

"The disclosure of the FBI investigative files to the Senate Committee by former Acting Director Gray was an action that would have been controlled by two Orders from the Department. Department Order 3464, Supplement No. 4 (revised), signed by the Attorney General on January 13, 1953, and currently in force, provides that all official files in the Department of Justice shall be regarded as of a confidential nature and the content thereof shall be disclosed only in the performance of official duties. The Order further provides that except upon specific authorization of the Attorney General, no officer or employee shall furnish to any person outside the Department of Justice any information obtained from the Federal Bureau of Investigation.

~~CONFIDENTIAL~~

Memo for Mr. Jacobson
Re: Watergate

A more recent Order, Attorney General Order No. 501-73, dated January 18, 1973, provides that no employee of the Department of Justice shall, in response to a demand of a court or other authority, produce any material contained in the files of the Department without prior approval of the appropriate Department official or the Attorney General. Where the information requested concerns a matter within the "cognizance" of a division of the Department, the Assistant Attorney General in charge of that division must make the determination whether the file may be disclosed. If disclosure is denied, the final determination is made by the Attorney General.

Therefore, if the disclosure of the file to the Committee is viewed as a voluntary offer by Mr. Gray, then such disclosure required prior approval of the Attorney General pursuant to Department Order 3464. If that disclosure is considered to have been the result of a request or demand of the Committee such disclosure would have required the prior approval of the Assistant Attorney General, Criminal Division, and/or the Attorney General himself, pursuant to Attorney General Order No. 501-73.

The act of disclosing the file itself does not appear to constitute a violation of the law but it may have constituted a breach of administrative regulations if the disclosure was made without prior authorization of the appropriate official. No determination can be made as to whether there was in fact a breach of administrative regulations without factual information from Mr. Gray and the other Department officials who may have been involved. As I view the regulations, they do not require any written record be made of the approval. It would have been enough if Mr. Gray had discussed this matter with the appropriate Department official and secured oral approval. "

The attached advises of the intention of Assistant Watergate Special Prosecutor James Neal to call clerk Ronald E. Thompson of the Director's Telephone Room to testify before the Federal grand jury, Washington, D. C., at 10:00 am, 7/18/73, to verify his initials on telephone logs kept for former Acting Director L. Patrick Gray III, during 1972. Mr. Thompson has been alerted to the foregoing and will appear as requested.

Leads are further set forth for location and interview by Alexandria of M. Millican and Fred Asbell, former Committee to Reelect the President personnel who delivered money from Fred LaRue to Hunt's attorney, William O. Bittman. LaRue on 6/27/73 pleaded guilty to an Information charging him with one count of conspiracy to obstruct justice in connection with the cover-up of the Watergate conspiracy.

Miami is also being requested to contact Eastern and National Airlines in an effort to locate a ticket used on 2/15/73, by Richard Moore who allegedly flew from Washington, D. C., to New York City to confer with former Attorney General Mitchell regarding the cover-up.

IRWIN M. SHULMAN, 4 Wendover Road, Eastchester, New York, Accountant, Harvey Bennett Associates, Certified Public Accountants, 317 North Avenue, New Rochelle, New York, was interviewed at his office in New Rochelle concerning the \$20,000 payment received by VICTOR LASKY in 1972.

SHULMAN advised that he does income tax returns for VICTOR and PATRICIA LASKY and does not manage their accounts on a regular basis. He made available a year-end work sheet made out by PATRICIA LASKY, believed by SHULMAN to be in her own handwriting, listing the LASKYs' income for 1972. This sheet revealed an entry for \$20,000 for VICTOR LASKY from the Financial Committee to Re-elect the President, and the entry was dated May 17, 1973. The sum was entered under a column headed "Freelance-Magazines, Books, Newspapers".

SHULMAN stated that he was in contact with Mrs. LASKY on July 3, 1973, concerning the entry, and it was her opinion that she had entered the May 17, 1972 date in error and that the date should be April 17, 1972. She advised SHULMAN that LASKY did not meet with JEB MAGRUDER in May. SHULMAN stated he had no other records concerning this entry.

Included on the work sheet was an entry dated July 11, 1972, disclosing a payment to PATRICIA LASKY from the Financial Committee to Re-elect the President in the amount of \$9,750. SHULMAN produced a W-2 form from the Financial Committee to Re-elect the President showing the sum \$9,750 as income paid to PATRICIA LASKY in 1972.

Mr. ~~VICTOR LASKY~~ was interviewed at his residence, Number 821, Watergate South, Washington, D. C. (WDC), by Federal Bureau of Investigation (FBI) Agents who identified themselves and stated the purpose of interview. LASKY provided the following information:

LASKY advised he is a free-lance writer. He has written speeches, articles for magazines, and several books. *DC*

DC Sometime before April, 1972, LASKY talked to W. RICHARD HOWARD about doing some writing for the Committee to Reelect the President. Sometime after this conversation, LASKY was contacted by FREDERICK C. LARUE about doing some writing for MARTHA MITCHELL. In April, 1972, LASKY took a trip to California on another writing job. Prior to this trip, he was contacted by LARUE and told that it was set up that he was to write some speeches for MARTHA MITCHELL and he would be paid a retainer of \$20,000.

LASKY could not recall the exact date he left for California. However, his wife, PATTY, checked her diary and found the date was April 4, 1972. LASKY stayed at the Holiday Inn in San Rafael, California. ROBERT REISNER called LASKY when he was in California and said the deal was okay and to come in and pickup the \$20,000 when he returned to Washington. LASKY said he was suppose to get the money before he left California, but did not have time. *DC*

LASKY could not remember when he returned from California. However, his wife checked her diary again which disclosed LASKY's return on April 17, and then April 18 he saw JEB STUART MAGRUDER. *DC*

LASKY met JEB STUART MAGRUDER at 1701 Pennsylvania Avenue to pick up his \$20,000 retainer. At this time, MAGRUDER made a quick phone call to HUGH W. SLOAN, JR., regarding the retainer. MAGRUDER then asked LASKY if he wanted the \$20,000 in cash or check. LASKY said he wanted it in cash. MAGRUDER paid him the \$20,000 in cash. 116

LASKY advised that he took the \$20,000 and put it in a safe deposit box which he rents at The Riggs National Bank located at the Watergate Apartments. LASKY then notified his accountant, IRWIN M. SHULMAN, 4 Wendover Road, Eastchester, New York, telephone number 914-DE7-8956 that he had received the \$20,000. LASKY explained that he does this in order for his accountant to keep records of his income and file a quarterly report with the Internal Revenue Service. LASKY said this \$20,000 was reported to the Internal Revenue Service.

LASKY advised that he wrote approximately a dozen speeches for MARTHA MITCHELL, some one line jokes, and several magazine articles which he does not believe were published. He said he wrote non-political speeches and jokes concerning her telephone conversations. LASKY advised that he had met with Mrs. MITCHELL and FREDERICK LARUE to find out what type material she wanted to have written.

LASKY advised that he had met MAGRUDER in 1969 when he had written a book titled The Nixon Years. This book was given to the Putnam's Publishing Company. LASKY was paid a \$40,000 advance by Putnam's for this book. This book was rejected by Putnam's on November 1, 1971. LASKY then returned the advance to Putnam's.

LASKY advised he has some copies of speeches he wrote for MARTHA MITCHELL; however, he did not want to produce them. He advised that Mrs. FORESBURG has some of this material at the Committee to Reelect the President.

JAMES WALTER MC CORD

821, WATERGATE

~~W. LASKY~~ On July 5, 1973, Irwin M. Shulman, Accountant, who resides in Eastchester, New York, advised a representative of the Federal Bureau of Investigation that he does handle Income Tax returns for Victor Lasky and his wife, Patricia, and does not manage their accounts on a regular basis. Shulman made available for review, the year end worksheet made out by Patricia Lasky in her handwriting which showed an entry for \$20,000 from the Financial Committee to Re-Elect the President. The entry was dated May 17, 1972. The entry was made under the column "Free Lance - Magazines, Books and Newspapers." Shulman advised he discussed the date May 17, 1972, with Patricia Lasky. She is of the opinion that she made an error on the worksheet and that the date should be April 17, 1972. Shulman advised he had no other records of this entry.

Included on the worksheet was an entry dated July 11, 1972, from the Financial Committee to Re-Elect the President to Patricia Lasky. The amount noted was \$9,750. Shulman displayed a W-2 form from the above Committee made out to Patricia Lasky for the amount \$9,750.

In view of the material set forth above, no further investigation of this matter is being conducted.

Reference is made to the memorandum of Mr. James Vorenberg dated July 3, 1973, captioned as above.

This will confirm discussions of July 10 and July 11, 1973, between Mr. Philip Heymann of the Special Prosecutor's Staff and Special Agent Charles A. Nuzum of this Bureau. With reference to item 22 captioned "Richard Best," Mr. Heymann was advised this individual undoubtedly is Richard Lee Bast, proprietor, Redex Corporation, 1404 New York Avenue, N. W., Washington, D. C., who has been the subject of an extensive Interception of Communications (IOC) investigation by the FBI concerning alleged violations by Bast of the IOC Statutes. Bast was indicted by the Federal grand jury, Washington, D. C., on February 23, 1972, for advertising, possessing and transporting in foreign commerce devices used primarily for surreptitious electronic surveillance. A superceding indictment was returned by the grand jury on May 26, 1972, which charged him with six counts of Section 2512, Title 18, U. S. Code (IOC), and one count of violation of Section 1934, Title 22, U. S. Code (exporting implements of war in violation of Department of State regulations).

On September 22, 1972, the U. S. District Court granted a defense motion to quash a search warrant executed on January 10, 1972, at Redex Corporation, which resulted in evidence which was the basis for indictment of Bast. At the present time the Government has an appeal pending in the U. S. Court of Appeals, Washington, D. C., concerning the decision of the U. S. District Judge.

Mr. Heymann was informed that reports concerning the Bast case have been delivered to the Office of the U. S. Attorney, Washington, D. C., and to the Criminal Division of the U. S. Department of Justice. Mr. Heymann stated that no 1973 investigation is necessary concerning Bast at this time in.
